MODULAR RIGGER'S BELT™ (MRB)

MRB-BB1

CRYE PRECISION™

DESIGN

Our Modular Rigger's Belt™ (MRB) is a single, lightweight belt system that carries your gear and holds up your pants. It features our new LoopLock™ inner belt layer that passes through pants belt loops, keeping the MRB™ oriented and stable. Made in the US from US materials. There are two main ways to configure the system to suit any operational need:

1. Keep the inner LoopLock™ layer attached to belt for most secure and stable setup.
2. Wear inner LoopLock™ layer as a separate low-profile pants belt for added versatility.

FEATURES

- Multiple pistol mounting options (on inner LoopLock™ layer, on exterior MOLLE sleeve, and on main belt)Highly flexible and easy to use
- Main belt can be replaced with alternate load-rated rigger's belts
- Ergonomically shaped for long wearing comfort
- Extremely light and low bulk
- MOLLE sleeve has opening for drop leg holster integration
- Inner LoopLock™ belt functions on its own as a great low-profile pants belt (no bulky hardware)

CARE INSTRUCTIONS

Do not machine wash or dry. Remove dirt by using a cloth or soft brush. Hand wash with warm water and cloth or soft brush and air dry indoors or in shade.
