3. Soft-lined collar and zipper placket for added comfort
4. Versatile intermediate body length
5. Drawcord hem
6. Flexible VELCRO® brand hook-and-loop configuration on bicep pocket

DESIGN

The FIELD SHELL™ is a versatile and refined soft shell jacket that offers significant utility in almost any weather. Our 4-way stretch laminate with Nano STX™ creates a highly breathable, lightweight, and extremely wind/rain resistant outer garment. Packability, clean lines, and refined features are the hallmarks of this garment. From the flat hidden-zipper front to the discreet zip mesh pockets that double as internal storage, this design remains uncluttered while still being multifunctional. Unique, armor-friendly pit zips allow easier access and more ventilation than traditional vents when wearing armor. Made in the US from US materials.
