SERVING THOSE WHO PROTECT FREEDOM™

FOREWORD

We stand with all who put themselves between the oppressed and the oppressors.
We stand with all who put themselves between the innocent and those who would do them harm.
We stand with all who put themselves between us and the enemies of freedom.
We are honored and humbled to equip the very best among us.

Caleb Crye
December 2018
**G4 COMBAT PANT™**

**FEATURES**
1. New lightweight, highly durable VTX Ripstop™ fabric
2. Dedicated knife holder with reinforced opening
3. Multi-pass throughs to cargo pocket to hold charges
4. Zip thigh pockets scall for phone
5. Adjustable padded waist with low profile VELCRO® adjust tabs
6. Set in low profile thigh cargo pockets with flaps below at back for expansion, thermo-bonded flaps tuck cleanly into pocket
7. Set in thigh pocket with expansion panel at bottom
8. Overall stretch for increased mobility
9. Mesh venting on all pockets for maximum airflow
10. VELCRO® waist closure with zip fly
11. Waistband lined with moisture wicking material
12. Knee pad height and tension adjustments
13. Cargo pockets conceal water bottle/magazine stabilizers
14. Accepts all of our AirFlex™ series combat knee pads (sold separately)

**DESIGN**
Our next generation of Combat Apparel features innovative, custom stretch VTX Ripstop™ fabric. Constructed with Invista’s T420 high tenacity nylon fiber to be light yet strong, integrated stretch allows for a slimmer cut with maximum mobility. Pockets are low profile and engineered to reduce bulk while still allowing room for all essential gear. Mesh venting for maximum airflow and comfortability. Built-in knee pad adjuster and padded adjustable waistband. Designed for use with our removable AIRFLEX® IMPACT KNEE PADS (sold separately). Made in the US from US materials.

The **G3 FIELD PANT™** is sized with 2” waist increments for perfect fit without bulky hardware. Ten pockets located for easy access in the same configuration as the **G3 COMBAT PANT™**. Shaped knees are reinforced and accept our **AIRFLEX® FIELD KNEE PADS**. Fabric is Mil-Spec 50/50 NYCO ripstop. Made in the US from US materials.

### Design
1. Dedicated knife/light holder that still allows pocket access
2. Each cargo pocket conceals water bottle/magazine stabilizer
3. Large front thigh pockets
4. Designed for use with our removable **AIRFLEX® FIELD KNEE PADS**
5. Extended zip fly
6. No-snag button closure

### Features
1. Double-layer bicep pocket with eye-pro holder and pen pocket
2. Built-in VELCRO® brand cinches on cuffs
3. Designed for use with our removable **AIRFLEX® FIELD ELBOW PADS** (sold separately)
4. Flexible VELCRO® brand hook-and-loop configuration on bicep pocket
5. Dual access NoProfile™ chest pocket design

This **G3 FIELD SHIRT™** is a traditionally tailored, general utility shirt featuring NoProfile™ dual-entry chest pockets (top and side) for easier access while wearing body armor, a pen pocket on the left arm, and slanted, dual-layer bicep pockets with segmented VELCRO® brand panels for reduced bulk. The bicep pockets feature an eye-pro holder. Shaped elbows are reinforced and accept our removable **FIELD ELBOW PADS** (sold separately). Fabric is Mil-Spec 50/50 NYCO ripstop. Made in the US from US materials.

### Design
1. Double-layer bicep pocket with eye-pro holder and pen pocket

**COMBAT PANT LE01™**

**FEATURES**
1. Large front thigh pockets easily accessible in vehicles.
2. Designed for use with removable AIRFLEX® COMBAT KNEE PADS.
3. Articulated leg for added mobility.

**DESIGN**
Offering both sublime tactical functionality and a refined appearance, the new COMBAT PANT LE01™ strikes an ideal balance of professional image and utility while also being more economical than our full-featured G3 COMBAT PANT™.

Ideal for LE units who want increased functionality, but need to maintain a more traditional uniform appearance. Flush, simple pocket details and refined tailoring make the COMBAT PANT LE01™ blend well into a duty uniform profile.

Made in the US from US materials.

COMPACT ALPINE OVERWHITES™

FEATURES
1. Shoulder access to shirt pockets
2. Extended pit zips provide increased breathability and easy access
3. Pass-through access to torso
4. Stirrup thumb loops keep cuffs from riding up
5. Folds and stores in cargo pocket on jacket
6. Leg gaiters make donning simple and allow better pant pocket access
7. Adjustable waist and hood
8. Durateon Marathon-H100™ water repellency treatment

DESIGN
COMPACT ALPINE OVERWHITES™ offer concealment in a highly packable, lightweight package. They’re light and small enough to carry with you or wear full time. Multiple pass-through zipper openings allow massive airflow and provide access to gear and pockets underneath. Large front cargo pockets double as a storage pack when not in use. The jacket’s extended length provides coverage from head to thigh in a single garment. Included leg gaiters separate at sides for easy donning, and stretch at top and bottom to allow for comfortable leg movement. Compared to a traditional over pant, the gaiters provide more mobility and better access to pants pockets while being less bulky and more breathable. Made in the US from US materials.

LWF JACKET™

FEATURES
1. Interior chest pocket
2. Zip closure hand pockets
3. Hem draw cord
4. Integrated thumb loops
5. Breathable mid-weight stretch fleece material
6. Tailored for extreme mobility without binding

DESIGN
A versatile layer that works well as a light standalone jacket or as breathable insulation under a shell. Comfortable in a wide temperate range. Made from a single-layer of a custom fleece fabric with a “slick” outer surface that sheds water and dirt better than typical fleece. This fabric is so quiet and stretchy you almost forget you’re wearing it. Sharp tailored lines give this jacket a clean and distinct appearance. Athletic fit for layering under other garments. If you prefer a loose fit, choose one size larger. Made in the US from US materials.

COLORS

LOFT JACKET™

FEATURES
1. Helmet-sized, single-layer hood stows in collar
2. Two exterior zip pockets and three large interior zip pockets
3. Stretch cuffs with integrated thumb loops
4. Jacket draws into built-in pocket forming a handy pillow
5. Breathable stretch fleece side panels
6. Tailored for extreme mobility without binding
7. Nano STX™ treatment sheds rain and snow
8. Climashield® insulation for extreme performance and packability

DESIGN
A great balance between an outer garment and an insulation layer. Our LOFT JACKET™ offers the right amount of functionality to be an ideal solution for most cold days and nights while remaining lightweight and minimal enough to be worn comfortably under nearly any shell (such as our FIELDSHELL™) as conditions worsen. The outer fabric is Nano STX™ treated to shed water and snow. Midweight Climashield® insulation for versatility and packability. The fit is athletic for wear under shells, if you prefer a loose fit, choose one size larger. Made in the US from US materials.

CREASE PRECISION 2019 PRODUCT GUIDE

FIELDSHELL 2™

FEATURES
1. Soft-lined collar and zipper placket for added comfort
2. Low-profile bicep pockets
3. Inner stretch cuff baffles keep the wind out
4. Extra-long armored-friendly pit zips
5. Patterned for extreme mobility without binding
6. Base fabric is an extremely weather resistant and lightweight 6-way stretch base STX™ laminate with woven knit interior face
7. Removable intermediate body length—compatible with our LWF JACKET™ and LOFT JACKET™
8. Drawcord hem with hidden hardware

DESIGN
The FIELDSHELL 2™ is an update of our original FIELDSHELL™ design. It’s a versatile and refined soft shell jacket that offers significant utility in almost any weather. Our lightweight, 4-way stretch laminate with Nano STX™ creates a highly breathable and extremely wind/rain resistant outer garment. Packability, clean lines, and refined features are the hallmarks of this garment. From the hidden hem adjuster to the discreet zip mesh pockets that double as internal storage, this design remains uncluttered while still being multifunctional. Unique, armor-friendly extra-long pit zips allow easier access and more ventilation than traditional vents when wearing armor. Pair with our LWF JACKET™ or LOFT JACKET™ for colder weather.

NOTE: The FIELDSHELL 2™ has a more athletic fit than the original FIELDSHELL™. If you’d prefer a loose fit or want the same fit as the original FIELDSHELL™, go with one size larger.

COLORS
MULTICAM® BLACK

WINDLINER™

FEATURES
1. Stirrup thumb cuffs
2. Folds and stows into single mesh-lined cargo pocket on sleeve
3. Shoulder hood
5. Elastic-bound hem
6. Drawcord hem
7. Soft-lined collar and zipper placket for added comfort

DESIGN
Extremely light and packable jacket that offers outstanding wind and weather resistance in a handy featherweight package. This WINDLINER™ folds into its own single mesh-lined cargo pocket. Perfect for packing light and countering unpredictable weather conditions. Made in the US from US materials.

COLORS
MULTICAM® BLACK
FEATURES

1. Packs into baseball-sized pouch for compact stowage
2. Laser-cut 3D shapes
3. Removable dual-layer cape

DESIGN
Snipers aren’t the only people on the battlefield who benefit from concealment. The COMPACT ASSAULT GHILLIE™ is a lightweight, low-bulk concept in assaultor concealment. It’s light and small enough to carry with you or wear full-time. Laser-cut 3D shapes physically break up the most visible human outline—the head and shoulders. Removable rear dual-layer panel folds forward to conceal a long gun or binoculars. The open-cut and featherweight materials allow massive airflow and prevent overheating. Stuff sack mounts to MOLLE or a belt. Made in the US from US materials.

COLOR

MULTICAM™
**HALFJAK® INSULATED**

**FEATURES**
1. Does not block access to any of your gear
2. Can be stuffed into internal pocket to create a pillow
3. Can be sized and mounted to vest as a hand warmer
4. Various mounting options via VELCRO® brand tab or webbing loops
5. Fits into compact stuff sack (excluded)
6. Zip-up front for quick and easy donning and doffing
7. Nano SFX™ treatment for extra comfort
8. Extended rear panel covers small pack

**DESIGN**
The **HALFJAK®** is a new minimalist concept in combat-specific weather protection. It keeps you stay warm and dry while avoiding overheating during movement. No need for stop and remove kit to layer up or down. No interference with your gear and the delay while you’re on the move. Instantly transition back and forth between highly-aerobic and stationary activities without getting sweaty or cold.

The **HALFJAK® INSULATED** version is our newest combat-specific cold/wet gear. Made with Climashield™ loft material, it is extremely light, packable, and warm. The exterior fabric is treated with a Nano SFX™ finish that keeps the water out.

**SIZES**

**SKULLCAP™**

**FEATURES**
1. Earband for eye protection
2. Polyester/Spandex blend printed fleece
3. Lined earband for additional warmth

**DESIGN**
The **SKULLCAP™** is a fitted, shaped cap, cut for maximum coverage and situational awareness. It keeps your ears warm and doesn’t block your peripheral vision. Made from a custom fabric that allows Multicam® to be printed directly onto the fleece, this light-weight Polyester/Spandex blend retains warmth while stretching to comfortably fit most heads. It’s light enough to fit under a helmet, but warm enough to be worn alone. One size fits all. Made in the US from US materials.

**SIZES**
One size fits all

**COLORS**
MULTICAM®, BLACK
FEATURES
1. Our proprietary AV (Insert As Vest™) architecture dramatically reduces bulk and printing
2. 3D-formed armor panels match the human body—delivering enhanced comfort & concealment
3. Base vest includes 2 built-in pockets suitable for radio, rifle mag, pistol, or pistol mag
4. Anti-microbial fabrics used throughout
5. Proprietary forming technique eliminates crumpling of armor
6. Wide range of optional carriers allow one system to economically cover many roles from low vis to overtly tactical
7. Optional side and abdomen armor panels are available
8. NIJ IIIA Certified

DESIGN
The LVS™ system sets a new standard for concealable body armor. Our proprietary 3-dimensional forming technology allows us to shape the vest to directly match the contours of the human body delivering an unprecedented level of concealment and comfort that only this production process can deliver. Because it is molded, the armor will not crumple and fall up in the bottom of the carrier. Instead, the LVS™ base vest requires no external carrier at all. This is due to our unique “Insert As Vest™” architecture. This construction greatly reduces bulk and visual printing. The LVS™ system is extremely versatile. A wide range of optional covers allow the same armor panels to be quickly swapped between vest configurations. For instance a patrol vest can instantly become a tactical entry vest... or anything in between. Additional side and abdomen armor panels are available to add even more coverage. The LVS™ armor is NIJ IIIA Certified. Made in the US from US materials.

The JPC 2.0™ MARITIME is a lightweight and minimal armor vest designed for maximum mobility, weight savings, and packability. At just over one pound for the entire carrier, the JPC 2.0™ MARITIME offers a variety of configuration options to suit an operator’s needs in terms of protection, modularity, and comfort. It features our MULTICAM® COMMENDUS system with our Integrated Attachment System that allows pouches to be mounted on both the inside and outside of the cummerbund. This system sheds unnecessary weight and bulk while improving overall ventilation.

FEATURES
1. Mesh construction for immediate draining during maritime operations
2. Easy 2-step emergency doffing capability
3. Zippers along the sides of the back carrier for zip-on panels
4. Webbing loops on the back of the shoulder straps to support back panels
5. Padded ventilation on interior panels of the vest for added comfort
6. Quick-attach side loops for add-on coverage
7. Drag handle that supports up to 400 lbs.
8. Low-profile cummerbund attachment that provides maximum adjustability and allows for chest expansion as needed
9. Single strap side closure option for ultra-lightweight configurations
10. Mesh panels for maximum drainage
11. Hidden vertical webbing loops on front carrier to support detachable chest rigs
12. High performance stretch material that allows for plates of varying thickness
13. VELCRO® panel on the front of the carrier allows detachable MOLLE or mag pouch front flap

DESIGN
This lightweight and minimal arm vest designed for maximum mobility, weight savings, and packability. As just over one pound for the entire carrier, the JPC 2.0™ MARITIME offers a variety of configuration options to suit an operator’s needs in terms of protection, modularity, and comfort. It features our MULTICAM® COMMENDUS system with our Integrated Attachment System that allows pouches to be mounted on both the inside and outside of the cummerbund. This system sheds unnecessary weight and bulk while improving overall ventilation.

ADAPTIVE VEST SYSTEM (AVS)™

FEATURES
1. Highly configurable to meet mission needs
2. Easily customizable to suit user preferences
3. Continually expanding catalog of components
4. Custom lightweight hardware

DESIGN
The AVS™ is a revolutionary system that quickly configures as anything from a low-vis rig to a fully armored load-bearing vest—and everything in between. Changing calibers? Simply switch out your front mag panel. Switching load-outs? Quickly slide off your modular pouches without unwrapping them. Shifting threats? Just add or remove armor panels without having to modify your gear load-out. Varying missions? Configure it as a load-bearing vest for recon work and switch right back to a fully-armored configuration with ease. Attach packs, zip-on rear panels, StKSS™ LOAD SUPPORTS, and many other accessories—the options are infinite. Made in the USA from US materials.

CRYE PRECISION 2019 PRODUCT GUIDE

FEATURES
1. Made from airlite®: our patented lightweight, strong, water-shedding material
2. Easy 2-step emergency doffing capability
3. Continuous 3D mesh interior panels for maximum comfort and ventilation
4. Compatible with our zip-on panels
5. Compatible with all our removable front flaps
6. Vertical webbing loops on front carrier to support detachable chest rig
7. Quick attach side loops for add-on ballistic coverage
8. Quick attach side loops for add-on ballistic coverage
9. Honeycomb attachment allows for multiple height positioning of cummerbund
10. Vertical adjustment slots in rear allows for multiple height position of cummerbund
11. Low-profile cummerbund attachment allows chest expansion and provides maximum sizing range.

The AIRLITE® SPC (STRUCTURAL PLATE CARRIER) offers all the lightweight mobility of our JPC™ while allowing the structural load support of our AVS™ & CPC™. At just over one pound for the entire carrier, the AIRLITE® SPC is an ideal choice for all environments including maritime. It pairs with our patented AIRLITE® STRUCTURAL CUMMERBUND system that allows pouches to be mounted on both the inside and outside of the cummerbund. Also our SPS PANELS can simply slide onto the cummerbund without “molle-ing” them. The AIRLITE® SPC is compatible with our EXTENDABLE STKSS™ to reduce the load on the shoulders and back. The AIRLITE® SPC sheds unnecessary weight and bulk while improving overall ventilation.

CAGE PLATE CARRIER (CPC™)

FEATURES
1. Lightweight (3-5 lbs. depending on size)
2. Accepts optional side armor inserts
3. Integrated mag, radio, and admin pouches
4. All parts are interchangeable with CAGE ARMOR CHASSIS™ components

DESIGN
The CAGE PLATE CARRIER (CPC™) offers unsurpassed comfort and load support in a low profile plate carrier configuration. It is renewable and accepts soft and hard armor inserts (sold separately). Designed from the ground up to take full advantage of our revolutionary STKSS™ SYSTEM that transfers the vest weight to the wearer’s hips. The CPC™ built-in cummerbund is designed to accept our soft armor panels and 6”x 6” plates. CPC™ PLATE BAGS (sold separately) include it to accommodate different plate thicknesses and have integrated magazine and admin pouches. Made in the US from US materials.

**Airlite® Detachable Flap, MOLLE**

**Features**
1. Durable Airlite® laminate provides for attachment of MOLLE pouches with minimal bulk and weight.
2. Drain holes allow for quick secure and low-profile means of attachment.
3. Side loops allow for attachment of 1" side-release quick attach buckles.
4. Bottom snap with pull tab provides secondary means of securing flap.
5. Works with JPC 2.0™ and AVS™ platebags.

**Design**
Crye Precision’s new Airlite® Detachable Flap, MOLLE brings a new level of performance with its ultra-strong lightweight material. The multi-functional flap attaches to the JPC 2.0™, AVS™, and provides three rows for attaching your favorite piece of kit to. Backed with mil spec VELCRO® brand hook ensures your front flap will always stay secure. Made in the US with US materials.

AIRLITE® CONVERTIBLE CHEST RIG

FEATURES
1. Total system weight less than one pound
2. Strong and breathable AIRLITE® laminate
3. Easily attached to harness or front of carrier via 1” quick release buckles
4. Highly adjustable. Front, back and side adjustment straps
5. Integrated elastic pockets on back of chest rig allows for carrying magazine or radio
6. Removable hook attachment tabs for secure fit on front of vest
7. Strong, lightweight, breathable harness with multiple attachment points at shoulders

DESIGN
The AIRLITE® CONVERTIBLE CHEST RIG is a lightweight multi-functional load carriage platform designed for maximum flexibility, weight-savings and packability. At just under one pound, the AIRLITE® CONVERTIBLE CHEST RIG offers a variety of configuration options to suit varying operational needs. The front panel can attach to the included shoulder harness or to the front of a vest using the included quick attach system. Our patented AIRLITE® construction sheds weight and improves overall ventilation.

AVS™ DETACHABLE CHEST RIG

FEATURES
1. Front outboard mag-pouches can be set up to hold a radio
2. Side plate pocket is designed to hold a 6” x 6” standalone plate
3. Two integrated pistol pockets on each side hold a wide range of pistols with or without a light
4. Holds virtually any size ballistic plate with stowable top flap
5. Four front pouches can hold two 5.56 mags, one 7.62, or one MBITR
6. Front opening zipper

DESIGN
The AVS™ DETACHABLE CHEST RIG is a multi-purpose chest rig capable of being used with various components of the AVS™ SYSTEM. This unique system allows the user to be able to carry a variety of components comfortably to include a ballistic plate. The AVS™ DETACHABLE CHEST RIG also features a front opening zipper, which allows for easy don and doff of the system when fully loaded. Made in the US from US materials.

**LOW PROFILE CHEST RIG**

**FEATURES**
1. Dual-layer SKELETAL™ CUMMERBUND allows user to mount gear on both sides simultaneously.
2. Zip front for easy don/doff.
3. Holds gear close to body for concealment under an outer garment.

**DESIGN**
The LOW PROFILE CHEST RIG is a simple method for carrying gear close to the body. Intended for use under an outer garment. Our dual-layer SKELETAL™ CUMMERBUND allows items to be mounted on the inside face and held tightly against the body. Stretch back allows for chest expansion while still keeping gear held tight. Zip front for easy don/doff. Made in the US from US materials.

CONTOURED DELTOID ARMOR

FEATURES
1. Proprietary 3-Dimensional forming process provides seamless ballistic coverage around the entire upper arm.
2. Removable NIJ IIIA compliant armor.
3. Attaches to nearly any protective tactical vest.

DESIGN
Our CONTOURED DELTOID ARMOR uses our proprietary 3-Dimensional forming process to provide seamless NIJ IIIA compliant ballistic coverage around the entire upper arm and shoulder. Integrates well with nearly any tactical vest. Ample VELCRO® loop for patches. Made in the US from US materials.

COLORS
MULTICAM®

EXTENDABLE StKSS™

FEATURES
1. Extremely simple and lightweight
2. Designed to reduce back fatigue
3. Highly flexible and easy to use
4. Very little impact on range of motion
5. Does not limit the vest’s emergency-release capability
6. Available for all sizes of AVS™, CPC™, and CHASSIS™
7. Adjusts on the fly for perfect fit

DESIGN
Our STRUCTURAL KINETIC SUPPORT SYSTEM (StKSS™) allows a wearer to selectively transfer some or all of the weight of their armor vest to their hips. EXTENDABLE StKSS™ allow the wearer’s shoulders and spinal column to be completely isolated from the weight being carried. Instead, the weight is transferred directly to the pelvis (hip bone) and legs. The effect is unmistakable, and the benefit is undeniable to those familiar with what wearing a >50 lbs. vest for months on end does to your lower back.

Made in the US from US materials.

COLORS

AVS™ EXTENDABLE STKSS™

CPC™ EXTENDABLE STKSS™
LOWER ABDOMEN PROTECTION (LAP)™ PANEL
Our LAP PANEL™ adds more soft armor coverage and load carriage area. It also incorporates two pockets for rifle-protective upgrade plates. It is compatible with most military and commercial body armor vests currently in use. Exceeds IBA and USASOC frag and handgun requirements.

ABDOMEN PANEL™
Our ABDOMEN PANEL™ adds soft armor coverage and a load carriage area below the front plate bag. It also incorporates a pocket for rifle-protective upgrade plates. It is compatible with most military and commercial body armor vests currently in use. Exceeds IBA and USASOC frag and handgun requirements.

PLATEBAG SOFT ARMOR INSERT

CPC™ SOFT ARMOR INSERTS
These soft armor panels add side protection to the CPC™ and JPC™. Exceeds IBA and USASOC frag and handgun requirements. Size 1: 6" x 10.5", 0.50 lbs. Designed to fit SM/MO CPC™. Size 2: 6" x 11.5", 0.52 lbs. Designed to fit LG/XL CPC™. Sold individually. Made in the US from US materials.

*Compatible with CPC™ when equipped with optional side long armor pouch.

SUSPENDERS
Our low-profile suspenders provide a wide and even load distribution with very little bulk and hardware. These products shift the paradigm by providing unique and unmatched comfort, functionality, and performance. For use with any of our vests.

SIDE-PULL MAG POUCH
A perfect way to carry and access two mags. Front carry is compatible with all vests that have front VELCRO® brand flap. For use with CPC™, AVS™, JPC 2.0™, and CHASSIS™. Fits most 5.56 mags.

ROLL-UP DUMP POUCH
A lightweight roll-up dump pouch designed to be fastened with VELCRO® brand hook-and-loop to the lower edge of any of our belts. CPC™, or CHASSIS™. Also works great on a rear CPC™ platebag. Use is for anything that needs to be stowed quick. Rolls up and stows out of the way when not being used and doesn’t take up any MOLLE space.

SOFT ARMOR PANELS
These soft armor panel is sized to fit behind 6" x 6" or 6" x 9" armor plates. Exceeds IBA and USASOC frag and handgun requirements. Sold individually. Made in the US from US materials.
**AVS™ LOW PROFILE BELT**

**FEATURES**
- Drop leg holster slots
- Built-in StKSS™ compatible pockets
- Dual-adjust locking buckle
- Elastic stow loops

**DESIGN**
The AVS™ LOW PROFILE BELT offers the same lumbar support and stable load carriage platform as our ballistic (BLAST™) belts, but with a non-ballistic insert. Designed to work in combination with the AVS™. It can also integrate seamlessly with our AVS™ LOW PROFILE BELT SOFT ARMOR INSERT. Made in the US from US materials.

**SIZES**

**COLORS**
- MULTICAM™
- COYOTE
- R. GREEN
- BLACK

**FEATURES**
- Quick release hardware allows for easy don and doff
- Pre-curved shaping for better fit and added comfort
- Low profile padding adds comfort for long term wear
- 3 ways to wear: wear alone, over a VELCRO® belt or as an insert in our MRB™
- Lined with low profile VELCRO® for integration with our MRB™ INNER BELT
- Not load rated. Do not use for rappelling or as a safety restraint of any kind. If you need a load rated belt, check out our LRB™

**DESIGN**
The RANGE BELT™ is a stable and comfortable platform that works great as a duty/gun/gear belt; flexible for comfort but sturdy enough to support a holster and other heavy gear. Wear alone, over a VELCRO® inner belt, or use as an insert in our MRB™. Critical use and safety warnings are contained in the product manual accompanying this product. Failure to adhere to these use and safety warnings may result in serious injury or death.

MODULAR RIGGER’S BELT (MRB)™ 2.0

FEATURES
1. Multiple pistol mounting options (on INNER BELT, on OUTER COVER and on OUTER BELT).
2. OUTER BELT can be replaced with our LRB™ or RANGE BELT™.
3. Ergonomically shaped for long wearing comfort.
4. Extremely light and low bulk.
5. MOLLE compatible OUTER COVER opens easily on both sides to accommodate holsters.
6. INNER BELT functions on its own as a great ultra-low-profile pants belt (no bulky hardware).

DESIGN
Our MRB™ 2.0 is a lightweight, low-profile belt system that comfortably carries your critical gear and holds up your pants. It’s a lot more versatile than a typical rigger’s belt and a lot less bulky than a typical load carriage belt. It’s configurable in multiple ways to facilitate your unique needs. It helps you move some gear off your vest and onto your hips for less back fatigue. Made in the US from US materials. It’s also designed to accept our LRB™ for load-rated applications.

There are two main ways to configure the system to suit any operational need:
1. Keep the INNER BELT attached to the OUTER COVER for a very stable and integrated set-up.
2. Wear the INNER BELT as separate low-profile parts belt for quick donning & doffing of your load-out OUTER COVER / OUTER BELT.

LRB™

FEATURES
1. Independently tested to meet the static and dynamic strength requirements of EN 358. (Fall prevention test standard, 2000 Edition)
2. Rated to 15kN
3. Two-piece, pull-through adjuster buckle forged in AL-7075 T6 aluminum with hard anodized coating.
4. Load-bearing Front Anchor Loop for easy access lanyard attachment.
5. Includes removable LRB™ FLOATING LOOP for attaching a lanyard at variable positions.
7. Pre-curved shaping for better fit and added comfort.
8. Low profile padding adds comfort for long term wear.
9. 3 ways to wear: wear alone, over a VELCRO® belt or as an insert in our MRB™.
10. Lined with low profile VELCRO® for integration with our MRB™ INNER BELT.

DESIGN
The LRB™ is a stable and comfortable load-rated platform belt that works great as a duty/gun/gear belt. Independently tested to meet the static and dynamic strength requirements of EN 358. (Fall prevention test standard.) This belt is flexible for comfort but sturdy enough to support a holster and other heavy gear. Wear alone, over a VELCRO® loop inner belt or use as an insert in our MRB™. With the included LRB™ FLOATING LOOP, you can attach a restraint to virtually any point along the belt, making it an ideal choice for aerial platforms. Add the optional LRB™ LEG LOOPS and you have an EN-12277 compliant mountaineering harness.

COLORS

**LRB™ LEG LOOPS**

**FEATURES**
1. When properly combined with the LRB™, this full system conforms to EN12277. (Test standard for mountaineering harnesses)
2. Simple, compact format for easy stowage
3. LRB™: Supports body weight through the legs in the event of a fall
4. Leg Loops: Supports body weight through the legs in the event of a fall
5. Adjustable Strap: Cinches the leg loops into a comfortable position to prevent chafing or snagging
6. Load-Rated Stitching: Contrasting color for ease of inspection
7. Rated to 15kN (used in conjunction with LRB™)
8. Critical use and safety warnings are contained in the product manual accompanying this product. Failure to adhere to these use and safety warnings may result in serious injury or death.

**DESIGN**
The LRB™ LEG LOOPS are load-rated leg loops for use with our LRB™. A simple, versatile and comfortable addition that turns your LRB™ into an EN 12277 compliant mountaineering harness. When used properly, this combined system conforms to EN 12277 (Test standard for mountaineering harnesses, 2015 Edition.)

**ASR™ LANYARD**

**FEATURES**
1. Officially approved for use by USSOCOM
2. Container with single-hand operation
3. Emergency release from belt under tension
4. Length adjustable from 18-30 inches
5. Adjustable hardware will not slip under load
6. Quickly and easily adjusted while being worn
7. Sleeve covers critical stitching for durability
8. Meets or exceeds USSOCOM safety lanyard specifications
9. Made in the US from US materials

**DESIGN**
The ASR™ (ADJUSTABLE SAFETY RESTRAINT) LANYARD is designed to be used in conjunction with the LRB™ as a travel restraint during helicopter operations.

**SIZES**
- LG/XL

Belt Accessories

BLAST™ LOW PROFILE BELT SOFT ARMOR INSERT
Soft armor panel for BLAST™ LOW PROFILE BELT. Exceeds IBA and SOFASOC frag and handgun requirements. Sizes SM–XL.

PAT. WWW.LWPATENTS.COM
1. Revolutionary vented shell design for passive cooling
2. Covers more of wearer’s nape than traditional designs
3. Lightweight design: MD 2.30 lbs. | LG 2.55 lbs. | XL 2.75 lbs.
4. Modular ear and face protection available
5. Modular ARC Rail™ system available
6. Includes 3/4” pads
7. Can be pre-drilled at factory for 3-hole or 4-hole NVG mounts (configuration compatible with Ops-Core® and Wilcox® 3-hole mounts)

**FEATURES**

The AIRFRAME™ ballistic helmet sets new standards in protection, comfort, and modularity. Complete AIRFRAME™ HELMETS weigh less than complete ACH 2002 helmets while providing more coverage area. The AIRFRAME™ was developed with a mandate to dramatically reduce headborne weight while exceeding common frag threats. A complete medium AIRFRAME™ HELMET weighs only 2.30 lbs., and the large weighs a mere 2.55 lbs. The unique overlapping shell design of the AIRFRAME™ creates an integrated vent that provides passive cooling and can reduce the damaging effects of explosive blast waves. Each AIRFRAME™ HELMET features an Ops-Core® H-Nape Head Loc™ retention system for unmatched stability, comfort, and ease of adjustment. Up arming the AIRFRAME™ with ballistic ear or face protection is simple and fast (see our EARS™ and CHOPS™ for more info). All helmets and components are compatible with common ear-pro systems like Peltors® and Sordin®. Made in the US from US materials.

AIRFRAME™ ACCESSORIES

A RAILS™
Based on the Ops-Core ARC Rail™ Architecture, this system allows any number of accessories to be mounted to the helmet. Includes an attachment for an oxygen mask, NVG retention bungee cords, and cable management ties down. The Ops-Core® ARC Rail™ system used under license from Ops-Core® Inc.

B CHOPS™
Easily attached and removed with one hand. CHOPS™ offer mission-tailorable maxillofacial protection that doesn’t compromise communication, hydration, or situational awareness. CHOPS™ use the same attachment system as EARS™.

FEATURES
• Allows proper sighting and firing of weapons
• Eliminates blind spots inherent to traditional face protection
• Able to be donned and doffed in seconds
• Compatible with NVGs and most standard tactical goggles
• Allows fragmentation and blast/flame protection

C EARS™
Easily attached and removed with one hand. EARS™ offer scalable and modular ear-protection. EARS™ are compatible with nearly all common ear-pros (Peltors®/Sordin®) and provide simple lightweight ballistic protection that doesn’t compromise communication, hydration, or situational awareness. EARS™ use the same attachment system as CHOPS™.

FEATURES
• Allows proper sighting and firing of weapons
• Eliminates blind spots inherent to traditional face protection
• Able to be donned and doffed in seconds
• Compatible with NVGs and most standard tactical goggle
• Allows fragmentation and blast/flame protection

COLORS
TAN  O.D. GREEN  BLACK

D STOCKPAD™ FOR CHOPS™
The STOCKPAD™ creates a high-friction interface between CHOPS™ and rifle stocks, providing greater stability while sighting. Each pair contains one adhesive-backed STOCKPAD™ and alcohol wipe for cleaning surface area before application. Left or right side available. Only available in black. Made in the US from US materials.

E PELTOR™ ADAPTER SET
Attach the 3M™ PELTOR™ ARC ADAPTERS to fit with your AIRFRAME™ FRAMES:™. These adapters also maintain compatibility with existing ARC rail geometry, and can be used interchangeably. Simple installation replaces the original mounting hardware, allowing Peltor™ ear-protection to be used with your AIRFRAME™ HELMET. Only available in black. Made in the US from US materials.

F AIRFRAME™ VELCRO® BRAND FASTENER KIT
Here’s a simple and clean way to attach strobes, battery packs, LEDs, propellers—whatever you want. Custom shapes lay flat and look way better than trying a DIY job on your helmet. Made in the US from US materials.

KIT INCLUDES
• 2 front shapes
• 2 side shapes
• 2 top shapes
• 1 back shape
**AIRFRAME™ ATX HELMET**

**FEATURES**
1. Meets NIJ ballistic requirements
2. Revolutionary vented shell design for passive cooling
3. Covers more of wearer’s nape than traditional designs
4. Modular ear and face protection available
5. Modular ARC Rail™ system available (O2 compatible)
6. Includes 3/4” pads
7. Can be pre-drilled at factory for 3-hole or 4-hole NVG mounts (configuration compatible with Ops-Core® and Wilcox® 3-hole mounts)

**DESIGN**
The AIRFRAME™ ATX is our law enforcement focused ballistic helmet—designed to offer the same advantages of our original AIRFRAME™ HELMET while meeting IIIA ballistic requirements. The unique overlapping shell design of the AIRFRAME™ creates an integrated vent that provides passive cooling and can reduce the damaging effects of explosive blast waves. Each AIRFRAME™ HELMET features an Ops-Core® H-Nape Head-Loc™ retention system for unmatched stability, comfort, and ease of adjustment. Up-arming the AIRFRAME™ with ballistic ear or face protection is simple and fast (see our EARS™ and CHOPS™ for more info). All helmets and components are compatible with common ear pro systems like Peltors® and Sordin®. Made in the US from US materials.

**AIRFRAME™ HELMET COVERS**

**AIRFRAME™ HELMET COVER**
The AIRFRAME™ HELMET COVER helps camouflage the helmet and provides points to attach items such as NVG battery packs, IR tapes, strobes, etc. Flexibly tailored to avoid interfering with the ventilation of the helmet. It includes multiple attachment options for local vegetation/straps. Attaches with included VELCRO® brand hook and loop straps.

**AIRFRAME™ HELMET COVER CUTOUT**
ärts state design of the AIRFRAME™ HELMET COVER, cut with the addition of a laser-cut hole in front panel. This allows for easy removal of helmet cover without unscrewing NVG mount.

NIGHTCAP™

FEATURES
1. Cable routing channels
2. Padded structural support for NVG mount
3. Highly adjustable headband and chin strap
4. No helmet needed to use NVGs
5. Stable and comfortable
6. Battery pack attachment
7. Simple low-profile chin strap

DESIGN
Solving the problem of wearing NVGs when you don’t need a helmet, the NIGHTCAP™ is great for low-vis needs, general recce work, and even hunting. Stuff it in your pocket until needed and then just clip your NVGs in for a lightweight and stable option when a helmet is not needed. Packs down to practically nothing. Feels like wearing a baseball hat. Simple, adjustable, and breathable. Compatible with all current 3-hole and 4-hole NVG mounts (not included). Made in the US from US materials.

NIGHTCAP™ BATTERY POUCH

FEATURES
1. Mounts directly to the nightcap with VELCRO® brand fasteners
2. Cable routing pass-through
3. Internal VELCRO® brand loop panel keeps battery packs from shifting
4. Holds a variety of battery packs up to 4.25" x 3.5" x 1.25"

DESIGN
The NIGHTCAP™ BATTERY POUCH mounts to the rear VELCRO® brand panel of the NIGHTCAP™ and provides a general purpose pouch for holding NVG battery packs. It is ideal for battery packs that do not mount well with adhesive backed hook fasteners, or for users who prefer their battery packs to sit much lower on the NIGHTCAP™. A cable pass through is provided at the lower right corner and aligns with the integrated cable management of the NIGHTCAP™. Made in the US from US materials.

AVS™ SELF-ACCESS
Low-profile option that’s well-suited for quickly accessing pack contents and easy don/doff

STANDALONE
Geared toward everyday use as a lightweight backpack with detachable sternum strap

AVS™ SEMI-FIXED
Low-profile option for carrying items that don’t require immediate access while retaining easy don/doff access

FIXED (PLATE BAG)
Replaces the rear plate bag of either the AVS™ or JPC™. Accommodates all ESAPI and swimmer-cut plate sizes

MOLLE-ATTACH
Allows the user to secure the pack to any PALS platform with a 4-row by 6-row area available
**Lightweight Alpine Pack Cover™**

**Features**
1. Folds and stores into built-in storage pocket.
3. Elastic draw-cord in hem to tailor fit for varying pack sizes.

**Design**
An extremely lightweight, water repellant pack cover that offers concealment when you need it and stows compactly when you don’t. Elastic draw-cord built into the hem allows for adjustability to fit various size packs. Offered in two sizes, MEDIUM will fit packs up to 2,100Cu in (34L), LARGE will fit packs up to 4,500Cu in (73L). Made in the US from US materials.

POUCH ZIP-ON PANEL 2.0

FEATURES
1. Snap closure top opening keeps tools from shifting
2. 2 side-access mag pockets
3. Built-in expandable hydration/bolt cutter pocket
4. Dedicated GP (gear pouch) configuration—compatible with SPS™ pouch inserts
5. Ample VELCRO® brand panels for ID and labeling
6. Quick zip-on/zip-off attachment

DESIGN
A panel of preconfigured pouches that zips to rear platebag. 2 VELCRO® brand lined GP pockets across the top, (ideal for use with any of our SPS™ pouch inserts) a wide GP pouch in the middle, and fold-flat wide GP pouch on the bottom. Use multiple zip-on panels for different types of work and switch quickly between them. Features a built-in hydration/bolt cutter pocket and 2 side access mag pockets. 4 hidden flat pockets are located behind GP pouches. Compatible with CHASSIS™, CPC™, AVS™, and JPC™ 2.0. Vests sold separately. Made in the US from US materials.

**AIRLITE® CONFIGURABLE RADIO POUCH**

**FEATURES**
1. Made with lightweight durable AIRLITE® material
2. 2 oz weight
3. Compatible with all VELCRO® front flap designs
4. Vertically adjustable bottom allows height adjustment for a radio
5. Heavy duty durable side elastic holds radio securely
6. Front buckle can be removed and replaced with shock cord/hook tab retention
7. Fits 152, MBITR or two 30-round M4 magazines
8. Large slot for compatibility with the STRUCTURAL CUMMERBUND
9. Ambidextrous design allows pouch to be attached to the left or right side of carrier

**DESIGN**
The AIRLITE® CONFIGURABLE RADIO POUCH adds a new level of comfort and adjustability when wearing a radio on your carrier. Multiple slots on the front and rear allow for a wide range of height adjustment and allows the pouch to be used on the operators left or right side. Additionally, heavy-duty side elastic and adjustable top cord provides a secure fit without interfering with controls or top of the radio. This AIRLITE® CONFIGURABLE RADIO POUCH will adjust to fit most radios and magazines, including the 152, MBITR and two 30-round M4 magazines.

**MAGCLIP®**

**FEATURES**
- Low-profile design mounts to MOLLE platforms and does not interfere with other mags when nested
- Does not interfere with magwell
- Belt mount capable
- Removable design allows mags to be easily concealed and/or clipped to a wide variety of surfaces for quick and easy access

**DESIGN**

The MAGCLIP® provides new options for carrying and using magazines. Ideal for applications where low visibility, rapid access, or additional capacity is needed.

Clip the magazine to any horizontal edge and grab when needed. The MAGCLIP® attaches directly to the magazine and remains on the magazine—no pouch necessary. Unique clip design allows many carry options: inside the waistband, on a belt, on MOLLE webbing, clipped inside a pack or case, inside a camber band, clipped to a vehicle door panel or under a seat.

While not intended to replace all magazine pouches, the MAGCLIP® is great for quick-access mags, adding mags wherever you have space, low-vis missions, or just throwing a few mags on a belt to hit the range without kitting up. Compatible with most 5.56 magazine types including GI mags, Magpul® PMAGS™ and EMAGS™ and HK® mags.

**COLORS**

- TAN
- BLACK

**NOTE:** CURRENT MAGCLIP™ IS NOT COMPATIBLE WITH MAGPUL® PMAG® GEN M3™ MAGS.

---

**GUNCLIP™**

**FEATURES**
- Allows use of nearly any light, suppressor, and/or sight
- Mount is compatible with all MOLLE platforms and belts up to 2” tall
- Quickly opens by unsnapping the retention tab while reaching for handgun
- Retention flap immediately releases and weapon can be instantly detached
- Single adjustment sets rotation angle (360°)
- Simple, one-handed operation to re-secure handgun

**DESIGN**

The GUNCLIP™ is an entirely new approach to carrying and deploying a handgun.

Any light, any suppressor, any platform, any orientation, any situation. Even if you’re in a cramped vehicle or wearing an armored vest with a gun on your belt, the GUNCLIP™ allows you to deploy your handgun and get on target fast. Its small size means minimal weight and space is taken up when not in use.

A single adjustment sets rotation (360°) and securely clamps the mount to almost any platform (belt or MOLLE). Fits belts up to 2” tall. Currently available for all GLOCK® 17, 19, 22, and 23 pistols. Right hand mount.

Made in the US from US materials.
We believe in America and we take pride in doing things the right way. This is why we are committed to American manufacturing. We believe a country that forgets how great things are made soon forgets the things that made it great.

We are headquartered in the historic Brooklyn Navy Yard in New York City. This is the same yard that launched some of America's most important warships, from the USS Ohio in 1820 to the USS Missouri in 1944, on whose decks WWII was officially ended September 2, 1945. We take pride in continuing the Yard's multi-century legacy of building the best for our fighting men and women. We work very hard to produce the best tools available and we do so right here in the heart of America's most celebrated city.

We're growing every year and continually reinvest in our personnel, our facilities and our processes to help fortify and expand our manufacturing base. We owe our success to our team and to our customers—people who share a deep appreciation for the value of an authentic, innovative product. While we may only be a small portion of the US economy, we're confident the positive ripple effect of supporting domestic manufacturing extends far beyond us. By making our products with the level of care and craftsmanship that can only be achieved by keeping it close, we're doing our part to build and maintain a knowledge base that might otherwise be lost. This is all part of doing things the right way. As long as our customers continue to demand innovative and high-quality domestic manufactured products we'll continue the effort to provide the best gear available—all made right here in America.
