

CRYE PRECISION™

2024 PRODUCT GUIDE

A close-up photograph of a person wearing a military-style camouflage jacket. The jacket features a multi-colored pattern of greens, browns, and tans. A small American flag patch is visible on the upper left chest area. The person's hands are visible, with one hand gripping a strap or zipper pull. The background is a snowy, outdoor setting with some bare trees visible in the distance. The overall tone is somber and respectful.

G4 **FEMALE FIT**

G4 FEMALE FIT The number of brave women in combat roles and tactical law enforcement positions continues to rise, and with that comes the need for apparel suited to meet their specific demands and body types. From women serving in military and law enforcement to civilians who require quality range apparel, the G4 Female Fit line is designed for the woman who takes her work, training, and lifestyle seriously.

G4 **STANDARD**

G4 STANDARD is our most innovative uniform line to date. Designed to be lightweight, breathable, and durable thanks to our custom stretch VTX RIPSTOP™ fabric, along with Invista's T420 high-tenacity nylon fiber. The integrated stretch allows for the athletic and streamlined cut with maximum mobility throughout the entire garment. Ideal for a wide range of temperatures.

G4 **HOT WEATHER**

G4 HOT WEATHER uniforms are designed specifically for the demands of harsh jungle environments and austere arid operations. The innovation lies heavily in the fast-drying nylon ripstop fabric with MCS Blocker™, which wicks away moisture and provides UV protection, combined with the moisture-wicking Polartec® Power Dry® mesh with antimicrobial finish that keeps you cool and dry.

G4 **FIRE RESISTANT**

G4 FR uniforms' design is uniquely specific to FR protection. Designed with High Strength Commando Twill, providing lightweight protection with a high strength-to-weight ratio. The fabric quickly self-extinguishes and maintains 8.5 times higher air permeability and faster dry time than 50/50 NYCO, while the Coolderm™ moisture management technology wicks sweat away from skin – an integral component when dealing with high-heat situations.

G4 **TEMPERATE**

G4 TEMPERATE SHELL provides weather resistance in mild temperatures, all-over stretch for enhanced mobility, and reduced bulk when layering. Designed to be layered with the Aclima® baselayers in cooler climates.

**The Crye Precision G4 Uniform:
Uncompromising, for uncompromising individuals.**

We here at Crye Precision pride ourselves on our nearly 20 years of uniform development. Our G4 uniform line is the sum of our research and extensive testing, resulting in unmatched performance and revolutionary design. The line has expanded to offer something for every environment and condition.

JOINT PROTECTION

○ AIRFLEX™ IMPACT FIELD KNEE PADS

AIRFLEX™ IMPACT PADS

FEATURES

- 1** Pads easily integrate with combat and field apparel
- 2** Lightweight yet highly durable construction
- 3** Compatible with all current and legacy apparel
- 4** Dual density foam provides impact dissipation and comfort

DESIGN

AIRFLEX™ IMPACT PADS introduce unmatched mobility and protection to our integrated joint protection system. Designed to be compatible with all our uniforms, these highly engineered protective pads are crafted for improved mobility, enhanced comfort and increased performance. Pads are sold as a pair. Made in the US from US materials.

A AIRFLEX™ IMPACT COMBAT KNEE PADS

The **AIRFLEX™ IMPACT COMBAT KNEE PAD** offer enhanced impact protection, comfort and flexibility by incorporating dual-density foam, a unique impact absorbing cap structure, and an expanded VELCRO® attachment area. These pads exceed impact protection requirements of test standard EN14404. These pads are specifically tailored to integrate with all styles of our **COMBAT PANTS™**.

INTRODUCING **ATO** ALPINE TERRAIN OPERATIONS®

The **ATO – ALPINE TERRAIN OPERATIONS®** line of outerwear is a multi-layer system developed to perform in the harshest cold weather environments. The line allows the wearer to tailor the system to suit their needs no matter the condition or level of activity.

ATO is the next level in extreme cold mission-ready outerwear.

1

ATO MID LOFT

FEATURES

- 1 Stowable hood with fit adjustment
- 2 Thumb cuffs for increased thermal protection
- 3 Zippered pockets with glove compatible pulls
- 4 Interior zippered chest pocket
- 5 Ski boot compatible $\frac{3}{4}$ length
- 6 Pass through pockets for access to under layer
- 7 Full length side zippers

DESIGN

The ATO – ALPINE TERRAIN OPERATIONS® MID LOFT is designed to provide warmth and wind protection when static while avoiding overheating during movement. The jacket is constructed with a durable wind resistant nylon fabric that is lightweight and packable. The Polartec® Alpha® Direct insulation is a uniquely constructed knit that does not require a lining layer, reducing the overall bulk but maintaining a high Clo value. The insulation is also highly breathable and designed to allow excellent ventilation during high activity in cold temperatures. It can be worn as a concealment outer layer in warmer temperatures and an insulation layer in the cold. It has a roll out helmet compatible hood that is stowed in the collar. The pant features an adjustable waist, glove compatible zippers, and pass through hand pockets to access under layers. Full side leg zips for easy donning/doffing over boots. $\frac{3}{4}$ Length to allow a better fit when worn with ski boots and provide warmth at crucial areas of leg. Made in the US from US materials.

ATO HIGH LOFT

FEATURES

- 1 Zip off hood, helmet compatible with reinforced visor
- 2 Hand pockets fleece lined for warmth
- 3 Elasticized cuff with thumb strap to keep out cold/snow
- 4 Reversible design
- 5 Set in cargo pocket with thermo bonded continuous flap
- 6 Zippered pass through pockets
- 7 $\frac{3}{4}$ leg zipper with snap tab at bottom hem

DESIGN

The ATO – ALPINE TERRAIN OPERATIONS® HIGH LOFT is a static insulation layer for cold weather environments. The Climashield® Apex insulation is thermally mapped with three different weights that deliver optimized warmth while minimizing overheating. The unique reversible design provides both alpine and woodland concealment as needed. It is constructed with a durable nylon outer fabric that is wind resistant and packable. Designed to be layered over baselayer, midlayer and uniform tops as well as armor. Stuff sack included. Made in the US from US and non-US materials.

WOOLNET CREW NECK SHIRT & PANTS

DESIGN

ACLIMA WOOLNET® is designed for high-intensity activities when moisture transport, weight, ventilation and the highest functionality is the most important. The net construction creates small air pockets that provide excellent insulation, reducing overheating. Thanks to the material's ability to transport moisture, the temperature is regulated during high and low-intensity levels, almost like a thermostat. The wool net is fast drying and comfortably stretchy.

SIZES

XS SM MD LG XL 2X 3X

COLORS

BLACK

HOTWOOL POLO & PANTS

DESIGN

ACLIMA HOTWOOL is a more robust base layer for activities in freezing temperatures. Its thicker Merino wool composition makes for a durable and warm base layer due to its wool/polyester/polyamide blend. HotWool's terry interior creates insulative air pockets that trap the wearer's body heat. This trait has made Aclima HotWool a go-to base layer for Special Operations Forces in cold climates. Layer the HotWool baselayers over the Woolnet layers for extreme cold environments, when maximum insulation is required.

ATO LW OVERWHITE

FEATURES

- 1 Helmet compatible hood opening with extended visor
- 2 Pit zip continues to front for plate carrier access
- 3 Shoulder pass throughs
- 4 Tweave elastic thumbloops
- 5 Inner thigh mesh zip vent
- 6 Full leg zipper for easy donning & doffing
- 7 Expandable cargo pocket with thermo bonded flap

DESIGN

The ATO - ALPINE TERRAIN OPERATIONS® LIGHTWEIGHT OVERWHITE offers quick alpine concealment in a highly packable, lightweight design. Constructed from a durable and water-resistant nylon shell, it features shoulder and pit zipper pass-through pockets to access gear underneath and provide ventilation. The jacket sleeves stay in place with stretch thumb loop cuffs and an adjustable elastic cord waist and hem keeps out the cold. The pant offers full length outseam zippers that allow for quick donning and doffing when transitioning between environments. Oversized cargo pockets accommodate essential cold weather gear and zippered thigh vents provide airflow as needed to prevent overheating. Designed to be layered over baselayer, uniform, outerwear as well as plate carriers. Made in the US from US materials.

LOFT JACKET

LWF™ 2.0

FEATURES

- 1** Fleece lined collar
- 2** Continuous underarm panel
- 3** Low profile bonded zipper pocket
- 4** Internal zippered chest pocket
- 5** Zippered hand pockets with stowable zipper pull
- 6** Integrated thumbhole at sleeve cuff

DESIGN

The **LWF™ 2.0** is a lightweight mid-layer fleece that pulls its weight year-round, thanks to its design that keeps it light, packable, and warm. Built to provide insulation in cold environments, the highly breathable Polartec® Power Stretch Pro® fleece material allows for uncompromised shape retention. The fabric's 4-way stretch enables unrestrained movement, and its wicking properties lifts moisture away from the body for faster evaporation during high activity. The collar is lined with a suede material for warmth and the sleeves feature a thumb loop cuff, low profile exterior and interior pockets. The athletic fit allows it to be worn comfortably under our **ATO™ MID LOFT JACKET** or hardshell outer layer. The **LWF™ 2.0** can also be worn as an outer layer in milder temperatures. Made in the US from US materials.

- 1** Collar with roll out hood
- 2** Zipper opening w/ storm flap
- 3** Shoulder pass through
- 4** Shock cord hem
- 5** Thumbloop cuff
- 6** J hooks secure jacket to armor webbing

DESIGN

The HALFJAK™ 2.0 takes your favorite things from its predecessor and adds some upgrades. The HALFJAK™ 2.0 helps you stay warm and dry while avoiding overheating during movement and granting access to critical gear on the plate carrier. Enhancements include jump-tested shoulder pass-through pockets that give access to underlayers, and thumb loop cuffs that keep sleeves in place and fit over and under gloves. Hooks clip to vests with a new J Hook that offers secure attachment. Made with ClimaShield™ Apex insulation, it is exceptionally light, packable, and warm. Now available in MultiCam® Alpine. Made in the US from US materials.

SMOC™

NEW

FEATURES

- 1 Roll-up hood
- 2 Integration with Compact Assault Ghillie
- 3 Accepts Airflex Field Kneepads in elbow pad pocket
- 4 Elastic crotch strap
- 5 Handwarmer pockets

DESIGN

Purpose built for multi-day recce missions, the **SMOC™ (Special Missions Operations Coat)** is designed to provide combat-specific weather protection and allow storage of critical gear. Constructed from a durable water repellent ripstop nylon shell and fully lined to provide warmth and wind protection. Designed with thumb loop cuffs, an elastic crotch strap and a shock cord cinchable waist to ensure proper fit and security. Our custom Field Expedient buttons are easily accessible with gloves and can be replaced without the need for sewing. Seamlessly integrates with the **COMPACT ASSAULT GHILLIE** and accepts our **AIRFLEX FIELD KNEEPAD** in the elbow pad pocket. Fit is oversized to layer over a uniform or baselayer and a midlayer top in cooler temps. Made in the US from US materials.

- 6** ClimaShield® insulation for extreme performance and packability

DESIGN

Our **LOFT JACKET™** offers the right amount of functionality to be an ideal solution for most cold days and nights while remaining light and minimal enough to be worn comfortably under nearly any shell (such as our **FIELD SHELL 2™**) as conditions worsen. The outer fabric is Nano STX™ treated to shed water and snow. Midweight ClimaShield® insulation for versatility and packability. The fit is athletic for wear under shells, if you prefer a loose fit, choose one size larger. Made in the US from US materials.

FIELD SHELL 2™

FEATURES

- 1** Soft-lined collar and zipper placket for added comfort
- 2** Low-profile bicep pockets
- 3** Inner stretch cuff baffles keep the wind out
- 4** Extra-long armor-friendly pit zips
- 5** Base fabric is an extremely weather resistant and lightweight 4-way stretch Nano STX™ laminate with wicking knit interior face
- 6** Versatile intermediate body length—compatible with our LWF Jacket™ and our Loft Jacket™

DESIGN

The **FIELD SHELL 2™** is a versatile and refined soft shell jacket that offers significant utility in almost any weather. Our lightweight, 4-way stretch laminate with Nano STX™ creates a highly breathable and extremely wind/rain resistant outer garment. Packability, clean lines, and refined features are the hallmarks of this garment. Unique, armor-friendly extra-long pit zips allow easier access and more ventilation than traditional vents when wearing armor. Pair with our **LWF JACKET™** or **LOFT JACKET™** for colder weather. Made in the US from US materials.

SKULLCAP™

FEATURES

- 1** Eyelets for eye protection
- 2** Flatlock internal seams for comfort
- 3** Lined earband for additional warmth
- 4** Polyester/Spandex blend printed fleece

DESIGN

The **SKULLCAP™** is a fitted, 3-panel cap, cut for maximum coverage and situational awareness. It keeps your ears warm and doesn't block your peripheral vision. Made from a custom fabric that allows MultiCam® to be printed directly onto the fleece, this light-weight Polyester/Spandex blend retains warmth while stretching to comfortably fit most heads. It's light enough to fit under a helmet, but warm enough to be worn alone. One size fits all. Made in the US from US materials.

COMPACT ASSAULT GHILLIE™

FEATURES

- 1** Packs into baseball-sized pouch for compact stowage
- 2** Laser-cut 3D shapes
- 3** Removable dual-layer cape

DESIGN

Snipers aren't the only people on the battlefield who benefit from concealment. The **COMPACT ASSAULT GHILLIE™** is a lightweight, low-bulk concept in assaulter concealment. It's light and small enough to carry with you or wear full-time. Laser-cut 3D shapes physically break up the most visible human outline—the head and shoulders. Removable rear dual-layer panel folds forward to conceal a long gun or binoculars. The open-cut and featherweight materials allow massive airflow and prevent overheating. Stuff sack mounts to MOLLE or a belt. Made in the US from US materials.

VESTS AND ACCESSORIES

○ JPC 2.0™ MARITIME

JPC 2.0™

FEATURES

- 1 Easy 2-step emergency doffing capability
- 2 Hidden vertical webbing loops on front carrier supports detachable chest rigs
- 3 High performance stretch material that allows for plates of varying thickness
- 4 Zippers along the sides of the back carrier for zip-on panels
- 5 Low-profile cummerbund attachment that provides maximum adjustability and allows for chest expansion as needed

DESIGN

The JPC 2.0™ is a lightweight and minimal armor vest designed for maximum mobility, weight savings, and packability. At just over one pound for the entire carrier, the JPC 2.0™ offers a variety of configuration options to suit an operator's needs in terms of protection, modularity, and comfort. It features our **SKELETAL CUMMERBUND™** system with our Integrated Attachment System that allows pouches to be mounted on both the inside and outside of the cummerbund. This system sheds unnecessary weight and bulk while improving overall ventilation. Made in the US from US materials.

LVS™**FEATURES**

- 1** Our proprietary IAV (Insert As Vest™) architecture dramatically reduces bulk and printing
- 2** 3D formed armor panels match the human body—delivering enhanced comfort & concealment
- 3** Base vest includes 2 built-in pockets suitable for radio, rifle mag, pistol, or pistol mags
- 4** Anti-microbial fabrics used throughout
- 5** Proprietary forming technique eliminates crumpling of armor
- 6** Wide range of optional carriers allow one system to economically cover many roles from low-vis to overtly tactical
- 7** NIJ IIIA Certified

DESIGN

The LVS™ system sets a standard for concealable body armor. Our proprietary 3D forming technology allows us to shape the vest to directly match the contours of the human body delivering an unprecedented level of concealment and comfort. The LVS™ base vest requires no external carrier at all. A wide range of optional covers allow the same armor panels to be quickly swapped between vest configurations. The LVS™ armor is NIJ IIIA Certified. Made in the US from US materials.

ADAPTIVE VEST SYSTEM (AVS)[™]

FEATURES

- 1** Highly configurable to meet mission needs
- 2** Easily customizable to suit user preferences
- 3** Continually expanding catalog of components
- 4** Custom lightweight hardware

DESIGN

The AVS[™] is a revolutionary system that quickly configures as anything from a low-vis rig to a fully armored load-bearing vest and everything in between. Changing calibers? Simply switch out your front mag panel. Switching load-outs? Quickly slide off your modular pouches without unweaving them. Shifting threats? Just add or remove armor panels without having to modify your gear load-out. Varying missions? Configure it as a load-bearing vest for recce work and switch right back to a fully-armored configuration with ease. Made the in US from US materials.

AIRLITE® SPC™

FEATURES

- 1 Made from AIRLITE®, our patented lightweight, strong, water-shedding material
- 2 Easy 2-step emergency doffing capability
- 3 Continuous 3D mesh interior panels for maximum comfort and ventilation
- 4 Compatible with our zip-on panels
- 5 Compatible with all our removable front flaps
- 6 Vertical webbing loops on front carrier to support detachable chest rigs
- 7 Low-profile cummerbund attachment allows chest expansion and provides maximum sizing range.

DESIGN

The AIRLITE® SPC (STRUCTURAL PLATE CARRIER) offers all the lightweight mobility of our JPC™ while allowing the structural load support of our AVS™ & CPC™. The AIRLITE® SPC™ is an ideal choice for all environments including maritime. It pairs with our patented AIRLITE® STRUCTURAL CUMMERBUND system that allows pouches to be mounted on both the inside and outside of the cummerbund. Also, our SPS POUCHES can simply slide onto the cummerbund without “mole-ing” them. Made in the US from US materials.

AIRLITE® DETACHABLE FLAP, MOLLE

FEATURES

- 1 Durable AIRLITE® laminate provides for attachment of MOLLE pouches with minimal bulk and weight
- 2 Drain holes at bottom
- 3 Top tabs allow for quick secure and low profile means of attachment
- 4 Side loops allow for attachment of 1" side release quick attach buckles
- 5 Bottom snap with pull tab provides secondary means of securing flap
- 6 Works with JPC 2.0™ and AVS™ platebags

DESIGN

Crye Precision's AIRLITE® DETACHABLE FLAP, MOLLE brings a level of performance with its ultra-strong lightweight material. The multi-functional flap attaches to the JPC 2.0™, AVS™ and provides three rows for attaching your favorite piece of kit. Backed with mil-spec VELCRO® brand hook ensures your front flap will always stay secure. Made in the US with US materials.

EXTENDABLE StKSS™

FEATURES

- 1 Extremely simple and lightweight
- 2 Designed to reduce back fatigue
- 3 Highly flexible and easy to use
- 4 Very little impact on range of motion
- 5 Does not limit the vest's emergency-release capability
- 6 Available for all sizes of AVS™, CPCT™, and Chassis™
- 7 Adjusts on the fly for perfect fit

DESIGN

Our **STRUCTURAL KINETIC SUPPORT SYSTEM (StKSS)™** allows a wearer to selectively transfer some or all of the weight of their armor vest to their hips. **EXTENDABLE StKSS™** allow the wearer's shoulders and spinal column to be completely isolated from the weight being carried. Instead, the weight is transferred directly to the pelvis (hip bone) and legs. The effect is unmistakable, and the benefit is undeniable to those familiar with what wearing a less than 50 lbs. vest for months on end does to your lower back. Made in the US from US materials.

ARMOR COMPONENTS + ACCESSORIES

MODULAR BALLISTIC COLLAR

The Crye **MODULAR BALLISTIC COLLAR** provides ballistic protection and is designed to be easily attached to the **AVS™**, **CPC™** and **LVS™ TACTICAL VEST**.

CONTOURED DELTOID ARMOR SET

Our **CONTOURED DELTOID ARMOR** uses our proprietary 3-Dimensional forming process to provide seamless NIJ IIIA compliant ballistic coverage around the entire upper arm and shoulder. Integrates well with nearly any tactical vest. Ample **VELCRO®** loop for patches.

MODULAR TRAP ARMOR SET

The **TRAP ARMOR** provides the same ballistic protection (Level IIIA) that is in our **LVS™** series vest and is designed to be easily attached to the **AVS™**, **JPC 2.0™**, **CPC™** and **LVS™ TACTICAL VEST**.

ABDOMEN PANEL™

Our **ABDOMEN PANEL™** adds soft armor coverage and a load carriage area below the front plate bag. It also incorporates a pocket for rifle-protective upgrade plates. It is compatible with most military and commercial body armor vests currently in use. Exceeds IBA and USASOC frag and handgun requirements.

LOWER ABDOMEN PROTECTION PANEL™

Our **LAP PANEL™** adds more soft armor coverage and load carriage area. It also incorporates two pockets for rifle-protective upgrade plates. It is compatible with most military and commercial body armor vests currently in use. Exceeds IBA and USASOC frag and handgun requirements.

E-DOFF EXTENSION

The **E-DOFF EXTENSION** enhances the use of E-Doff handle when wearing bulky gloves. The cord system attaches easily and securely while the slim profile allows the handle to be placed behind or in front of the shoulder strap.

CPC™ SIDE SOFT ARMOR INSERT

These soft armor panels add side protection to the **CPC™** and **JPC™***. Exceeds IBA and USASOC frag and handgun requirements. Size 1: 6"x10.5", 0.50 lbs. Designed to fit SM/MD **CPC™**. Size 2: 6"x11.5", 0.52 lbs. Designed to fit LG/XL **CPC™**. Sold individually. Made in the US from US materials.

*Compatible with **JPC™** when equipped with optional side long armor pouch.

PLATEBAG SOFT ARMOR INSERT

Soft armor panel for use with non-standalone plates. Exceeds IBA and USASOC frag and handgun requirements. Sold individually. Made in the US from US materials. **Sizes SM-XL.**

SIDE SOFT ARMOR INSERT

These soft armor panel is sized to fit behind 6"x6" or 6"x9" armor plates.

Size 1: 6" x 6". Size 2: 6" x 9".

Exceeds IBA and USASOC frag and handgun requirements. Sold individually. Made in the US from US materials

IIIA SIDE ARMOR INSERT™ **NEW**

IIIA Side Armor Insert™ provides Level IIIA ballistic protection in a variety of coverage areas and is designed to fit the **MODULAR SIDE ARMOR CARRIER (MSAC)™** and legacy side armor pouches. The insert is offered in 6 sizes and are sold individually. Made in the US from US materials.

BELTS

MRB 2.

Q™

MCS™ LOAD RATED BELT

NEW

FEATURES

- 1 Independently tested to meet static and dynamic strength requirements of EN 358. (Fall prevention test standard, 2000 Edition)
- 2 Two-piece pull through adjuster buckle forged in AL-7075 T6 aluminum with hard anodized coating
- 3 Slim, flexible design
- 4 Load bearing front anchor loop for easy access lanyard attachment
- 5 Quickly attaches/detaches to loop style inner belts
- 6 Easily attach MOLLE pouches

DESIGN

The MCS™ (MINIMALIST CARRY SYSTEM) LOAD RATED BELT is a versatile platform designed for comfort, mobility, and support for heavy gear. The semi rigid contoured shape allows for an ergonomic fit ideal for extended wear. The belt has been independently tested to meet the static and dynamic strength requirements of EN 358 (fall prevention test standard). Its slim design reduces weight but is wide enough to incorporate MIL-SPEC webbing on the outer face to provide a stable duty or range load out platform. Low profile hook on the inside ensures a secure attachment to the MCS™ INNER BELT or any other loop style inner belt. Made in the US with US materials.

MCS™ INNER BELT

NEW

FEATURES

- 1 Lightweight low-profile design
- 2 Contoured shape for maximum comfort
- 3 Ambidextrous tab adjusters for customizable fit
- 4 Drop leg and IWB holster compatible
- 5 Mates securely with an outer belt
- 6 1" MIL-SPEC webbing connection points for multiple buckle options
- 7 Belt width: 1.625"

DESIGN

The **MCS (Minimalist Carry System) INNER BELT™** offers high adjustability, comfort, and maximum support in a lightweight package. Its dual adjuster tab design allows the wearer to finetune the fit. The belt features a low profile semi-rigid contoured design that prevents pinching, even when supporting drop leg or IWB holsters. It comes equipped with a side release buckle but can be configured with the included G-Hook buckle for a very low profile setup. It is also compatible with the magnetic **FIDLOCK V-Buckle** (sold separately). Lastly, the MIL-SPEC VELCRO® on outer face provides an unbeatable platform for a secure fit when pairing with an outer belt. Made in the US with US materials.

AIRLITE® SLC BLAST BELT

FEATURES

- 1 Made with AIRLITE® material for mounting pouches
- 2 Low profile, contoured for streamlined fit
- 3 Removable dual density foam laminate with composite for support
- 4 Front snap allows ease of attaching and removing drop holsters on side of belt
- 5 Removable inner belt
- 6 Back inside center loop for inner belt retention
- 7 Horizontal webbing loops for inner belt stability
- 8 Side support pockets allow for StKSS™ use
- 9 Compatible with Load Rated Belt (LRB™), the MCS INNER BELT, or any belt less than 2" in width.

DESIGN

The AIRLITE® SLC BLAST BELT provides comfortable support in a low profile contoured package allowing for a streamlined fit while reducing weight using Crye's new AIRLITE® material for mounting pouches. Available in either a ballistic (SLC BLAST BELT) or non-ballistic (SLC BELT) version. Side flaps with snaps allow for quick and easy attachment and removal of drop holster systems. The AIRLITE® SLC BLAST BELT is compatible with Crye Precision's suspenders. Made in the US from US materials.

MODULAR RIGGER'S BELT (MRB)™ 2.0

FEATURES

- 1** Multiple pistol mounting options (on INNER BELT, on OUTER COVER and on OUTER BELT)
- 2** OUTER BELT can be replaced with our Range Belt™
- 3** Ergonomically shaped for long wearing comfort
- 4** Extremely light and low bulk
- 5** MOLLE compatible OUTER COVER opens easily on both sides to accommodate holsters
- 6** INNER BELT functions on its own as a great ultra-low-profile pants belt (no bulky hardware)

DESIGN

Our MRB™ 2.0 is a lightweight, low-profile belt system that comfortably carries your critical gear. It's a lot more versatile than a typical rigger's belt and a lot less bulky than a load carriage belt. It's configurable in multiple ways to facilitate your unique needs. Wear INNER BELT attached to the OUTER COVER for a very stable and integrated set-up. Or you can wear the INNER BELT as separate low-profile pants belt for quick donning & doffing of your load-out outer belt. Made in the US from US materials.

ASR™ LANYARD

FEATURES

- 1 Carabiner with single-hand operation
- 2 Emergency release from belt under tension
- 3 Length adjustable from 18-30 inches
- 4 Quickly and easily adjusted while being worn
- 5 Meets or exceeds USSOCOM safety lanyard specifications
- 6 Made in the US from US materials

DESIGN

The **ASR™ (ADJUSTABLE SAFETY RESTRAINT) LANYARD** is designed to be used in conjunction with a load rated belt as a travel restraint during transit in aircraft. The **ASR™ LANYARD** quickly and easily adjusts from 18" to 30" and is officially approved for use by USSOCOM. Made in the US from US materials.

HEADBORNE SYSTEMS

A diagram with three thin white lines originating from the bottom-right corner of the 'HEADBORNE SYSTEMS' box. One line extends horizontally to the right, ending at a small circle next to the text 'AIRFRAME™ ATX HELMET'. The other two lines extend diagonally downwards and to the right, ending near the right edge of the frame.

AIRFRAME™ ATX HELMET ○

A small, partially visible image of a helmet with a camouflage pattern, located in the bottom right corner of the page.

AIRFRAME™ ATX HELMET

FEATURES

- 1 Meets IIIA ballistic requirements
- 2 Revolutionary vented shell design for passive cooling
- 3 Covers more of wearer's nape than traditional designs
- 4 Modular ear and face protection available
- 5 Modular ARC Rail™ system available (O2 compatible)
- 6 Includes 3/4" pads
- 7 Can be pre-drilled at factory for 3-hole or 4-hole NVG mounts (configuration compatible with Ops-Core® and Wilcox® 3-hole mounts)

DESIGN

The **AIRFRAME™ ATX** is our law enforcement focused ballistic helmet—designed to offer the same advantages of our original **AIRFRAME™ HELMET** while meeting IIIA ballistic requirements. The unique overlapping shell design of the **AIRFRAME™** creates an integrated vent that provides passive cooling and can reduce the damaging effects of explosive blast waves. Each **AIRFRAME™ HELMET** features an Ops-Core® H-Nape Head-Loc™ retention system for unmatched stability, comfort, and ease of adjustment. Up armoring the **AIRFRAME™** with ballistic ear or face protection is simple and fast (see our **EARS™** and **CHOPS™** for more info). All helmets and components are compatible with common ear-pro systems like Peltors® and Sordins®. Made in the US from US materials.

AIRFRAME™ HELMET

FEATURES

- 1 Revolutionary vented shell design for passive cooling
- 2 Covers more of wearer's nape than traditional designs
- 3 Lightweight design: MD 2.30 lbs. | LG 2.55 lbs. | XL 2.75 lbs.
- 4 Modular ear and face protection available
- 5 Modular ARC Rail™ system available
- 6 Includes 3/4" pads
- 7 Can be pre-drilled at factory for 3-hole or 4-hole NVG mounts (configuration compatible with Ops-Core® and Wilcox® 3-hole mounts)

DESIGN

The **AIRFRAME™** ballistic helmet sets standards in protection, comfort, and modularity. Complete **AIRFRAME™ HELMETS** weigh less than complete ACH 2002 helmets while providing more coverage area. The **AIRFRAME™** was developed with a mandate to dramatically reduce headborne weight while exceeding common frag threats. A complete medium **AIRFRAME™ HELMET** weighs only 2.30 lbs., and the large weighs a mere 2.55 lbs. The unique overlapping shell design of the **AIRFRAME™** creates an integrated vent that provides passive cooling and can reduce the damaging effects of explosive blast waves. Each **AIRFRAME™ HELMET** features an Ops-Core® H-Nape Head-Loc™ retention system for unmatched stability, comfort, and ease of adjustment. Up armoring the **AIRFRAME™** with ballistic ear or face protection is simple and fast (see our **EARS™** and **CHOPS™** for more info). All helmets and components are compatible with common ear-pro systems like Peltors® and Sordin®. Made in the US from US materials.

AIRFRAME™ ACCESSORIES

RAILS™

Based on the Ops-Core® ARC Rail™ Architecture, this system allows any number of accessories to be mounted to the helmet. Includes an attachment for an oxygen mask, NVG-retention bungee cords, and cable management tie-downs. The Ops-Core® ARC Rail™ system is used under license from Ops-Core® Inc.

COLORS

TAN O.D. GREEN BLACK

CHOPS™

Easily attached and removed with one hand, **CHOPS™** offer mission-tailorable maxillofacial protection. **CHOPS™** provide simple, lightweight ballistic protection that doesn't compromise communication, hydration, or situational awareness. **CHOPS™** use the same attachment system as **EARS™**.

COLORS

TAN O.D. GREEN BLACK

EARS™

Easily attached and removed with one hand, **EARS™** offer scalable and modular ear-protection. **EARS™** are compatible with nearly all common ear-pro (Peltors®/Sordin®) and provide simple lightweight ballistic protection that doesn't compromise communication, hydration, or situational awareness. **EARS™** use the same attachment system as **CHOPS™**.

COLORS

TAN O.D. GREEN BLACK

STOCKPAD™ FOR CHOPS™

The **STOCKPAD™** creates a high-friction interface between **CHOPS™** and rifle stock, providing greater stability while sighting. Each pack contains one adhesive-backed **STOCKPAD™** and alcohol wipe for cleaning surface area before application. Left or right side available. Only available in black. Made in the US from US materials.

PELTOR™ ADAPTER SET

Allows the **3M™ PELTOR™ ARC ADAPTERS** to fit with our **AIRFRAME™ RAILS™**. These adapters also maintain compatibility with existing ARC rail geometry, and can be used interchangeably. Simple installation replaces the original mounting hardware, allowing Peltor™ ear-protection to be used with the **AIRFRAME™ HELMET**. Only available in black. Sold as a pair. Made in the US from US materials.

AIRFRAME™ VELCRO® BRAND FASTENER KIT

Here's a simple and clean way to attach strobes, battery packs, LEDs, propellers—whatever you want. Custom shapes lay flat and look way better than trying a DIY job on your helmet. Made in the US from US materials.

KIT INCLUDES

- 2 front shapes
- 2 side shapes
- 2 top shapes
- 1 back shape

AIRFRAME™ HELMET
WITH OPTIONAL
ACCESSORIES

NIGHTCAP™

FEATURES

- 1 Cable routing channels
- 2 Padded structural support for NVG mount
- 3 Highly adjustable headband and chin strap
- 4 No helmet needed to use NVGs
- 5 Stable and comfortable
- 6 Battery pack attachment
- 7 Simple low-profile chin strap

DESIGN

Solving the problem of wearing NVGs when you don't need a helmet, the **NIGHTCAP™** is great for low-vis needs, general recce work, and even hunting. Stuff it in your pocket until needed and then just clip your NVGs in for a lightweight and stable option when a helmet is not needed. Packs down to practically nothing. Feels like wearing a baseball hat. Simple, adjustable, and breathable. Compatible with all current 3-hole and 4-hole NVG mounts (not included). Made in the US from US materials.

NIGHTCAP™ BATTERY POUCH

FEATURES

- 1 Mounts directly to the nightcap with VELCRO® brand fasteners
- 2 Cable routing pass-through
- 3 Internal VELCRO® brand loop panel keeps battery packs from shifting
- 4 Holds a variety of battery packs up to 4.25" x 3.5" x 1.25"

DESIGN

The **NIGHTCAP™ BATTERY POUCH** mounts to the rear VELCRO® brand panel of the **NIGHTCAP™** and provides a general purpose pouch for holding NVG battery packs. It is ideal for battery packs that do not mount well with adhesive backed hook fasteners, or for users who prefer their battery packs to sit much lower on the **NIGHTCAP™**. A cable pass through is provided at the lower right corner and aligns with the integrated cable management of the **NIGHTCAP™**. Made in the US from US materials.

AIRFRAME™ HELMET COVERS

A AIRFRAME™ HELMET COVER

The **AIRFRAME™ HELMET COVER** helps camouflage the helmet and provides points to attach items such as NVG battery packs, IR tape, strobes, etc. Finely tailored to avoid interfering with the ventilation of the helmet. It includes multiple attachment options for local vegetation/jute. Attaches with included VELCRO® brand hook-and-loop straps.

B AIRFRAME™ HELMET COVER CUTOUT

Same base design as the **AIRFRAME™ HELMET COVER**, but with the addition of a laser-cut hole in front panel. This allows for easy removal of helmet cover without unscrewing NVG mount.

MULTICAM®

A person is shown from the waist down, wearing olive green tactical pants and a black belt. A bag with a camouflage pattern and black straps is slung over their shoulder. A white line originates from a small square at the bottom left, near the text, and extends upwards and to the right, branching into two lines that point to small white squares on the bag and the person's leg. The background is solid black.

PACKS AND POUCHES

EXP VENTURE BAG™

INTRODUCING THE
EXP VENTURE BAG™

FEATURES

- 1 Durable abrasion resistant 1000D Cordura® exterior fabric.
- 2 2650 cu.in.
- 3 Meets airline carry-on size 22" x 14" x 9" and can compact to smaller size.
- 4 Opens fully for easy packing and visibility.
- 5 Integrated garment bag with stretch panels.
- 6 Fold-down/removable side bolsters allows for maximum adjustability.
- 7 Three carry options: backpack, shoulder bag or with handle.
- 8 Built-in shoe compartment.
- 9 Stowable reinforced pack straps.
- 10 Abrasion-resistant bottom reinforcement.
- 11 Top access panel.

DESIGN

The **EXP VENTURE PACK™** is the perfect traveling companion for your clothing and equipment needs. The main flap doubles as a garment bag allowing for easy packing and protection of suits or uniforms. The integrated shoe compartment provides a space to keep your shoes or dirty clothes away from the main interior. Stowable reinforced pack straps and removable shoulder strap allow for multiple carry options. A durable 1000D Cordura® exterior and abrasion-resistant bottom will ensure your contents are always protected. Made in the US from US materials.

AIRLITE® CONFIGURABLE RADIO POUCH

FEATURES

- 1** Made with lightweight durable AIRLITE® material
- 2** Compatible with all VELCRO® front flap designs
- 3** Vertically adjustable bottom allows height adjustment for a radio
- 4** Heavy duty durable side elastic holds radio securely
- 5** Front buckle can be removed and replaced with shock cord/hook tab retention
- 6** Fits 152, MBITR or two 30 round M4 magazines
- 7** Ambidextrous design allows pouch to be attached to the left or right side of carrier

DESIGN

The AIRLITE® CONFIGURABLE RADIO POUCH adds a level of comfort and adjustability when wearing a radio on your carrier. Multiple slots on the front and rear allow for a wide range of height adjustment and allows the pouch to be used on the operators left or right side. Additionally, heavy-duty side elastic and adjustable top cord provides a secure fit without interfering with controls on top of the radio. The AIRLITE® CONFIGURABLE RADIO POUCH will adjust to fit most radios and magazines, including the 152, MBITR and two M-4 30 round magazines. Made in the US with US materials.

POUCHES AND ACCESSORIES

FB/40MM POUCH™

NEW

Durably constructed from laser-cut **AIRLITE®**, this pouch offers superior strength and reliability as well as quick access to flashbang and 40mm grenades. With single, double and triple pouch options available, the **FB/40MM POUCH™** is a versatile and secure carry solution.

SIDE-PULL MAG POUCH

A perfect way to carry and access two mags. Front carry is compatible with all vests that have a front **VELCRO®** brand flap. Rear carry is ideal for rear **CPC™ PLATEBAGS**. Fits most 5.56 mags.

CPC™ STRETCH MAG POUCH

This ultralight pouch allows easy access to two magazines without taking up any MOLLE space. Can be mounted for bottom or top "pull". Fits most 5.56 mags.

CPC™ STRETCH SIDE PLATE POUCH

This ultralight pouch provides another option for carrying a 6"x 6" plate or other small items on a side of a **CAGE PLATE CARRIER™ (CPC™)** or any vest with a **VELCRO®** brand hook-and-loop-receptive interior surface. Designed to carry a standalone 6"x 6" plate, a low-vis 6"x 6" with a soft backer, or anything small that you want to mount behind the cummerbund.

MBITR RADIO POUCH SET

Designed to carry one MBITR-sized radio or two mags. This pouch attaches via **VELCRO®** brand hook-and-loop under the front flap of a vest. Ideal for the **JPC™**. Stretches to fit contents. Adjustable ride height. Left and right pouch included.

JPC™ SIDE PLATE POUCH SET

Each pouch holds one standalone 6"x 6" plate or one low-vis 6"x 6" and a soft armor backer. It attaches directly to the front plate bag or can be woven onto the **SKELETAL CUMMERBUND™**. Stretches to fit contents. Left and right pouch included.

*ALSO AVAILABLE IN MARITIME

JPC™ LONG SIDE PLATE POUCH SET

This pouch set allows the use of our soft armor panels with your **JPC™**. It also holds most 6"x 6" plates. Simply attach the pouch to the interior MOLLE loops on the **SKELETAL CUMMERBUND™** for added coverage. The rear of the pouch can be positioned between the wearer and the rear plate to allow for proper fit and adjustment.

ROLL-UP DUMP POUCH

A lightweight roll-up dump pouch designed to be fastened with **VELCRO®** brand hook-and-loop to the lower edge of any of our belts, **CPC™**, or **CAGE ARMOR CHASSIS™**. Also works great on rear **CPC™ PLATEBAGS**. Use for anything that needs to be stowed quick. Rolls up and stores out of the way when not being used and doesn't take up any MOLLE room.

GUNCLIP™

FEATURES

- 1** Allows use of nearly any light, suppressor, and/or sight
- 2** Mount is compatible with all MOLLE platforms and belts up to 2" tall
- 3** Quickly opens by unsnapping the retention tab while reaching for handgun
- 4** Retention flap immediately releases and weapon can be instantly detached
- 5** Single adjustment sets rotation angle (360°)
- 6** Simple, one-handed operation to re-secure handgun

DESIGN

The **GUNCLIP™** is an entirely new approach to carrying and deploying a handgun. Any light, any suppressor, any platform, any orientation, any situation. Its small size means minimal weight and space is taken up when not in use. A single adjustment sets rotation (360°) and securely clamps the mount to almost any platform (belt or MOLLE). Fits belts up to 2" tall. Currently available for all GLOCK® 17, 19, 22, and 23 pistols. Right hand mount. Made in the US from US materials.

COLORS

MAGCLIP®

FEATURES

- 1** Low-profile design mounts to MOLLE platforms and does not interfere with other mags when nested
- 2** Does not interfere with mag-well
- 3** Belt mount capable
- 4** Versatile design allows magazine to be easily concealed and/or clipped to a wide variety of surfaces for quick and easy access

DESIGN

The **MAGCLIP®** provides options for carrying and using magazines. Ideal for applications where low visibility, rapid access, or additional capacity is needed. Unique clip design allows many carry options: inside the waistband, on a belt, on MOLLE webbing, or inside a cummerbund. **MAGCLIP®** is great for quick-access mags, adding mags wherever you have space or low-vis missions. Compatible with most 5.56 magazine types including GI mags, Magpul® PMAGS™ and EMAGS™ and HK® mags.

NOTE: CURRENT **MAGCLIP®** IS NOT COMPATIBLE WITH MAGPUL® PMAG® GEN M3™ MAGS.

MADE IN BROOKLYN

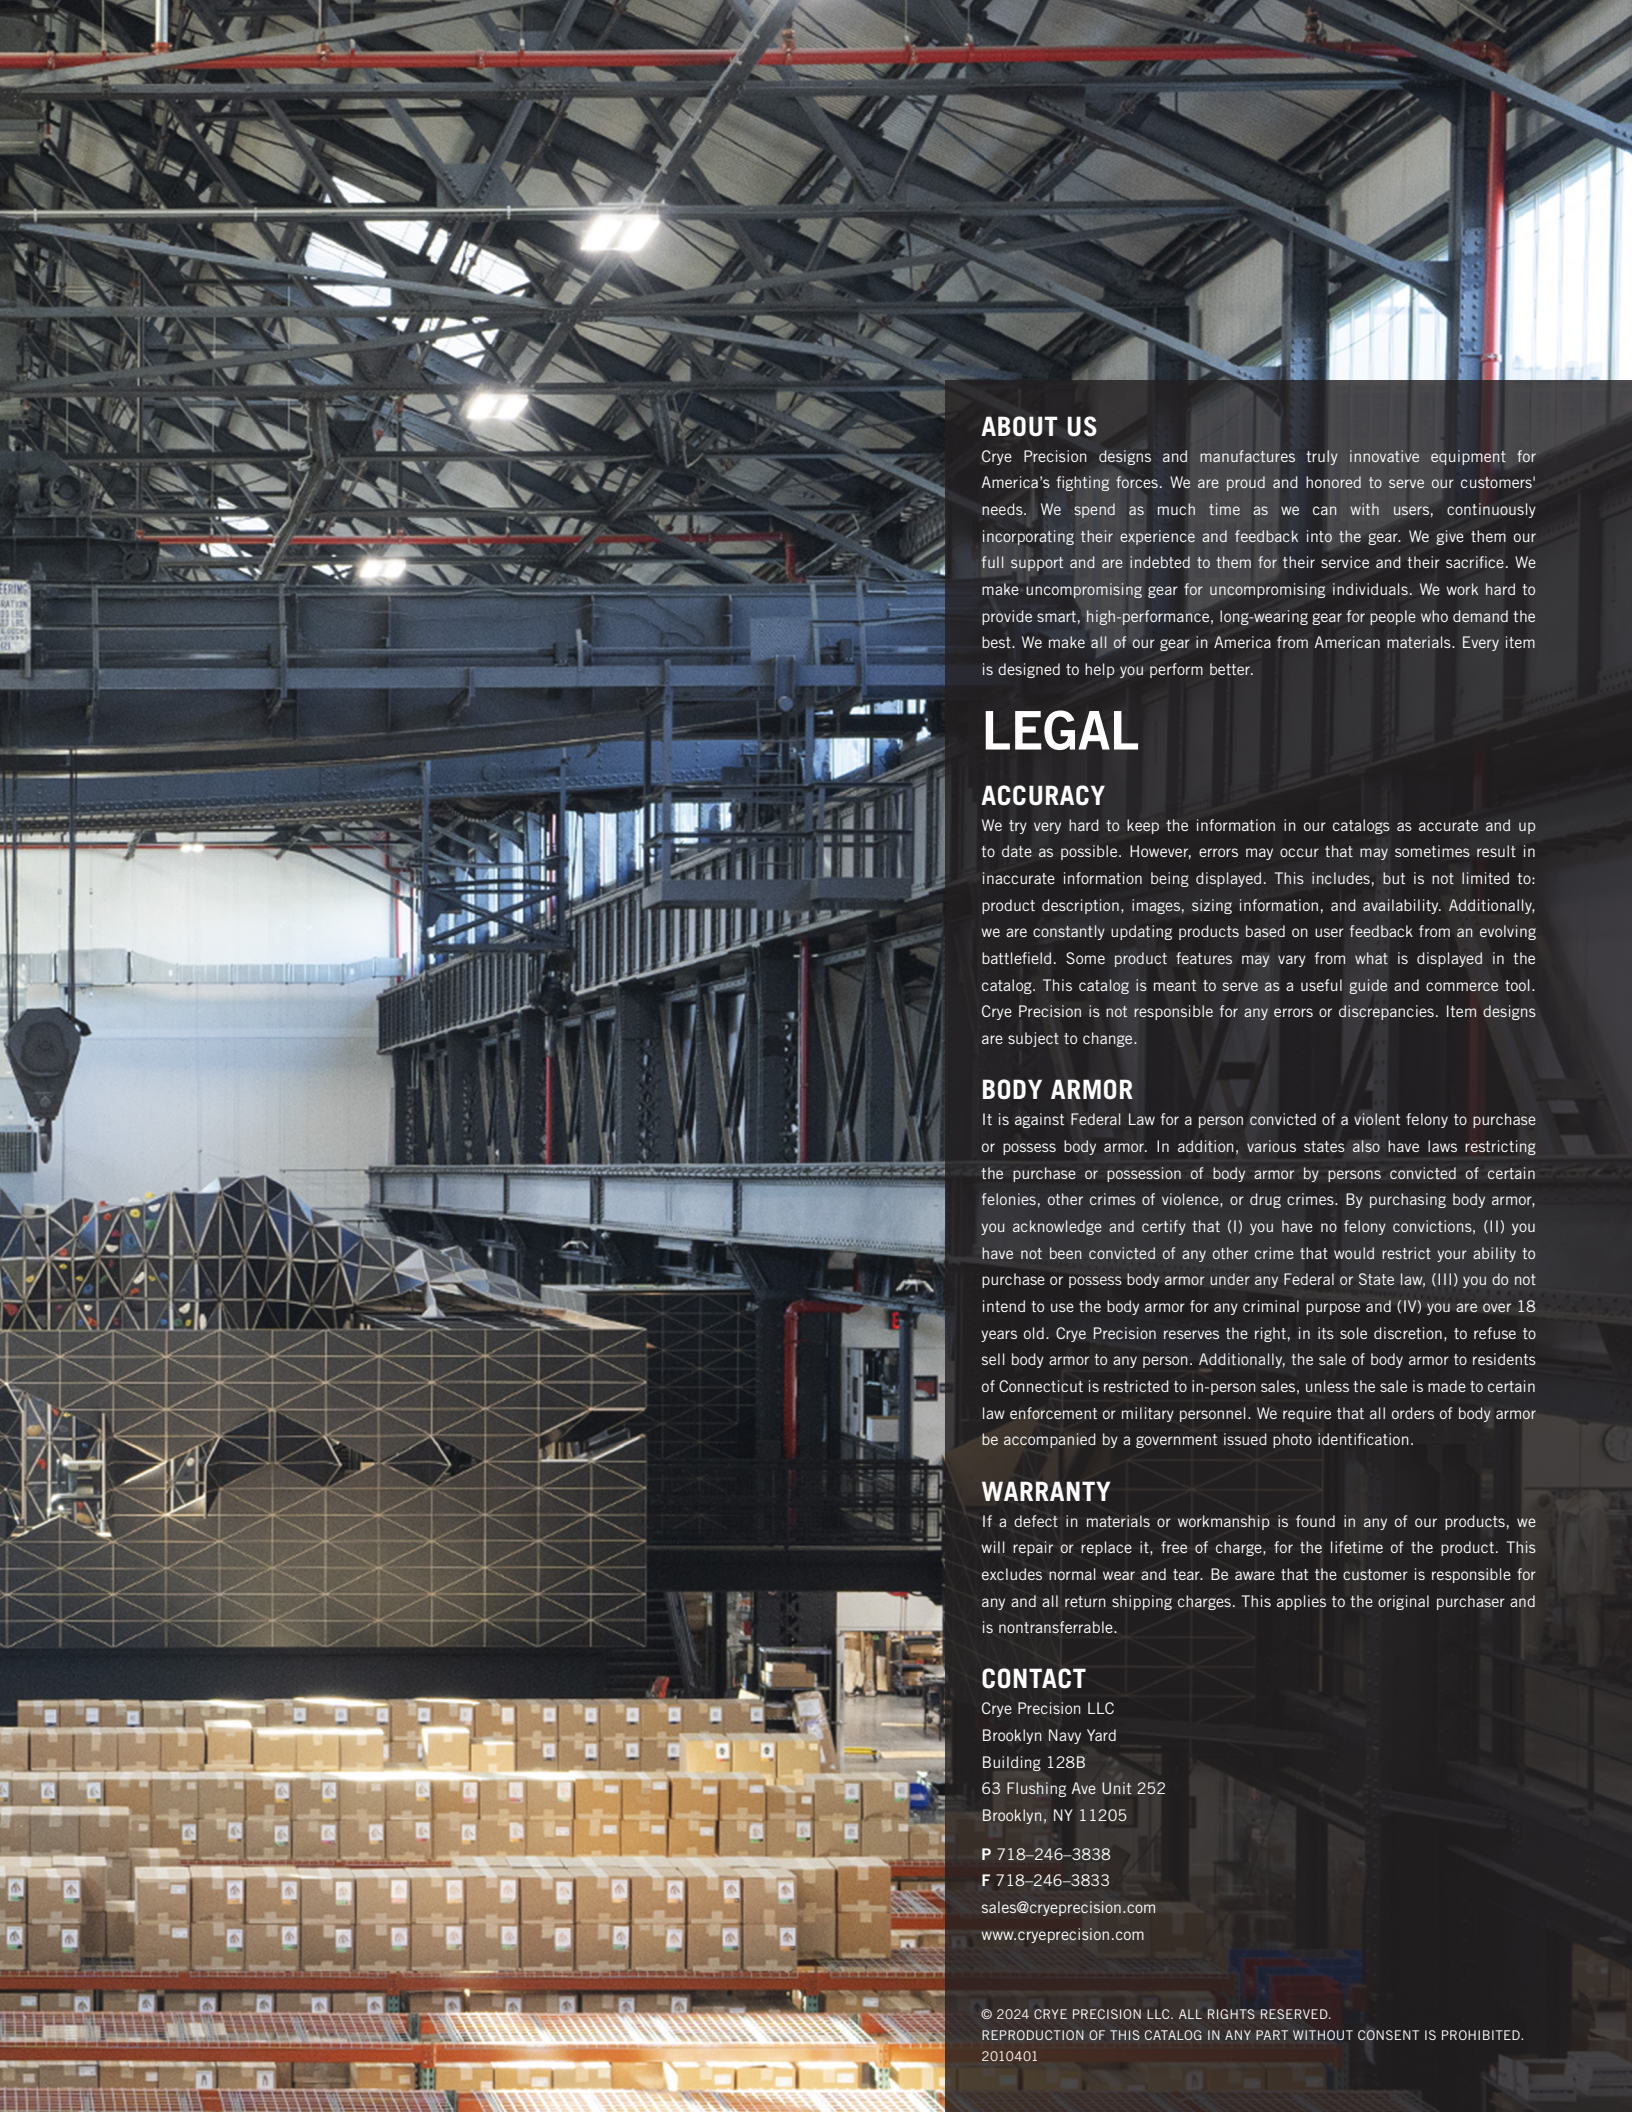

OUR COMMITMENT TO AMERICAN MANUFACTURING

We believe in America and we take pride in doing things the right way. This is why we are committed to American manufacturing. We believe a country that forgets how great things are made soon forgets the things that made it great.

We are headquartered in the historic Brooklyn Navy Yard in New York City. This is the same yard that launched some of America's most important warships, from the USS Ohio in 1820 to the USS Missouri in 1944, on whose decks WWII was officially ended September 2, 1945. We take pride in continuing the Yard's multi-century legacy of building the best for our fighting men and women. We work very hard to produce the best tools available and we do so right here in the heart of America's most celebrated city.

We're growing every year and continually reinvesting in our personnel, our facilities and our processes to help fortify and expand our manufacturing base. We owe our success to our team and to our customers—people who share a deep appreciation for the value of an authentic, innovative product. While we may only be a small portion of the US economy, we're confident the positive ripple effect of supporting domestic manufacturing extends far beyond us. By making our products with the level of care and craftsmanship that can only be achieved by keeping it close, we're doing our part to build and maintain a knowledge base that might otherwise be lost. This is all part of doing things the right way. As long as our customers continue to demand innovative and high-quality domestic manufactured products we'll continue the effort to provide the best gear available—all made right here in America.

ABOUT US

Crye Precision designs and manufactures truly innovative equipment for America's fighting forces. We are proud and honored to serve our customers' needs. We spend as much time as we can with users, continuously incorporating their experience and feedback into the gear. We give them our full support and are indebted to them for their service and their sacrifice. We make uncompromising gear for uncompromising individuals. We work hard to provide smart, high-performance, long-wearing gear for people who demand the best. We make all of our gear in America from American materials. Every item is designed to help you perform better.

LEGAL

ACCURACY

We try very hard to keep the information in our catalogs as accurate and up to date as possible. However, errors may occur that may sometimes result in inaccurate information being displayed. This includes, but is not limited to: product description, images, sizing information, and availability. Additionally, we are constantly updating products based on user feedback from an evolving battlefield. Some product features may vary from what is displayed in the catalog. This catalog is meant to serve as a useful guide and commerce tool. Crye Precision is not responsible for any errors or discrepancies. Item designs are subject to change.

BODY ARMOR

It is against Federal Law for a person convicted of a violent felony to purchase or possess body armor. In addition, various states also have laws restricting the purchase or possession of body armor by persons convicted of certain felonies, other crimes of violence, or drug crimes. By purchasing body armor, you acknowledge and certify that (I) you have no felony convictions, (II) you have not been convicted of any other crime that would restrict your ability to purchase or possess body armor under any Federal or State law, (III) you do not intend to use the body armor for any criminal purpose and (IV) you are over 18 years old. Crye Precision reserves the right, in its sole discretion, to refuse to sell body armor to any person. Additionally, the sale of body armor to residents of Connecticut is restricted to in-person sales, unless the sale is made to certain law enforcement or military personnel. We require that all orders of body armor be accompanied by a government issued photo identification.

WARRANTY

If a defect in materials or workmanship is found in any of our products, we will repair or replace it, free of charge, for the lifetime of the product. This excludes normal wear and tear. Be aware that the customer is responsible for any and all return shipping charges. This applies to the original purchaser and is nontransferrable.
