

AIRLITE® STRUCTURAL CUMMERBUND

ALT095

FEATURES

1. Strong lightweight composite compatible with our **EXTENDABLE STKSS™** system that reduces shoulder and back loading
2. Dual sided, allows for attachment pouches on the inside and outside of cummerbund
3. Internal loop provides secure attachment of **AVS™** style slide on pouches
4. Low-profile easy-to-grab handles for rapid doffing
5. Compatible with **AVS™** plate bag system

DESIGN

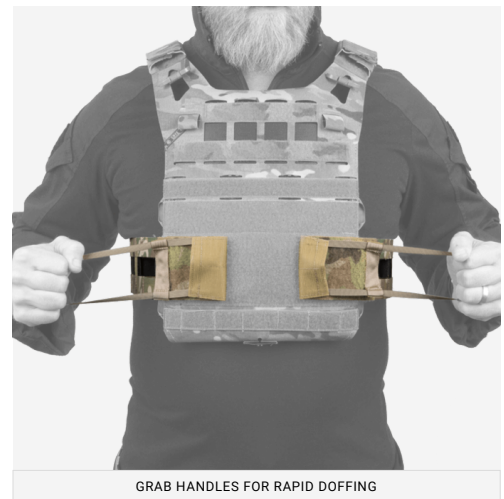

The **AIRLITE STRUCTURAL CUMMERBUND** provides rigidity and structure for supporting side plates and heavy loads. It is compatible with our **EXTENDABLE STKSS™** system which reduces load on the shoulders and back. Pouches can be mounted on both the inside and outside of the cummerbund. It is designed for use with our **AIRLITE SPC™** and is also compatible with our **AVS™** plate pouch set. Our **SPS POUCHES** and **AVS™** pouches can simply slide onto the cummerbund without having to "mole" them on.
