9. **NOTE:** Does NOT accept AIRFLEX EBLow PADS.

DESIGN

Our lightest, most breathable Combat Shirt. Engineered specifically for arid environments, our next generation Hot Weather Combat Apparel is extremely lightweight and designed to be worn under body armor and features an extremely lightweight, fast-drying nylon ripstop fabric with MCS Blocker™ to wick away moisture and provide UV protection. Fast-drying, moisture wicking Polartec® Power Dry® mesh jersey with antimicrobial X-Static fiber keeps you cool and dry. Extremely lightweight nylon ripstop reinforces areas of high wear. Minimal zip collar allows for easy donning/doffing. Overall minimal design to reduce weight and thermal burden. WWW.LWPATENTS.COM Made in the US from US materials.
