

FIELD SHELL 2™

APRFH2

DESIGN

The FIELD SHELL 2™ is an update of our original FieldShell™ design. It's a versatile and refined soft shell jacket that offers significant utility in almost any weather. Our lightweight, 2-way stretch laminate with Nano STX™ creates a highly breathable and extremely wind/rain resistant outer garment. Packability, clean lines, and refined features are the hallmarks of this garment. From the hidden hem adjuster to the discreet zip mesh pockets that double as internal storage, this design remains uncluttered while still being multifunctional. Unique, armor-friendly extra-long pit zips allow easier access and more ventilation than traditional vents when wearing armor. Made in US from US materials.

Limited inventory on hand. Additional leadtime may apply. Call for info.

FEATURES

- 1. Soft-lined collar and zipper placket for added comfort
- 2. Low-profile bicep pockets
- 3. Inner stretch cuff baffles keep the wind out
- 4. Extra-long armor-friendly pit zips
- 5. Patterned for extreme mobility without binding
- 6. Versatile intermediate body length—compatible with our LWF JACKET and our LOFT JACKET
- 7. Drawcord hem with hidden hardware

FABRIC

- 1. Lightweight 2-way stretch laminate with moisture wicking knit interior and Nano STX treatment for shedding rain and snow
- 2. 95% Nylon 5% Spandex
- 3. 2 layer laminate, 7 oz
- 4. Surpasses MIL-C-44187 for Waterproof Breathable Laminates in Moisture Vapor Transport Rate and Water Repellency
