DESIGN

Our FR Field Apparel features our innovative High Strength Commando Twill™ fabric. Constructed with inherently FR fibers, it is incredibly light yet strong. The engineered stretch allows for a slimmer cut while maintaining maximum mobility. Pockets are low profile and engineered to reduce bulk while still allowing room for all essential gear. Adjustable waistband. Flame tested on NC State's Pyroman (in accordance with ASTM F1930) for an optimized thermal protection level. Designed for use with our removable **AIRFLEX™ IMPACT FIELD KNEE PADS** (sold separately). Made in US from US materials.
