DESIGN

The **G4 AVIATION FIELD PANT™** is designed as a rugged utility pant with aviation specific features like dual entry cargo pockets that are accessible while seated. A dedicated low-profile screwdriver pocket at the thigh and oversized calf pockets fit essential gear. Light yet strong fire-resistant fabrics that have been tested on NC State's Pyroman for an optimized thermal protection level. The reinforced seat increases durability. Designed for use with our all **AIRFLEX™ FIELD KNEE PADS** (sold separately). Made in the US from US materials.
