WEIGHTS

SM: 1.4 lbs.

MD: 1.6 lbs.

LG: 1.8 lbs.

XL: 2.0 lbs.

DESIGN

The AIRLITE® SLC BLAST BELT is a stable and supportive belt designed with load carriage in mind. The contoured shape and slim padding provide comfort even when fully kitted out. Its wide profile helps to disperse weight and minimize movement during high activity. The belt integrates seamlessly with **STKSS (STRUCTURAL KINETIC SUPPORT SYSTEM)™**, the revolutionary load support system that transfers vest-borne weight to the hips. The low-profile AIRLITE® MOLLE panel allows for quick and easy attachment and removal of drop holster systems and pouches. The ballistic insert offers Level IIIA protection. The AIRLITE® SLC BLAST BELT is compatible with the **LRB (LOAD RATED BELT)™** and **SUSPENDERS**. Made in the US from US materials.
