6. Adjustable padded waist with low profile die cut VELCRO® adjust tabs
7. Waistband lined with moisture wicking material
8. Set in low profile thigh cargo pockets with bellows at back for expansion, thermobonded flaps tuck cleanly into pockets

## DESIGN

Our G4 Female Fit Combat Pant features the same innovative, custom stretch **VTX RIPSTOP™** fabric as the standard G4 uniform, with a design that is custom patterned to fit our female customers. The G4 Female Fit Combat Pant is constructed with Invista's T420 high tenacity nylon fiber to be light yet strong. Integrated stretch and dedicated shaping around the hips allow for a slimmer cut with maximum mobility. Reduced front and back rise, and inseam lengths provide a more tailored fit throughout, while pockets are low profile and engineered to reduce bulk while still allowing room for all essential gear. Mesh venting for maximum air-flow and breathability. Optimized kneepad placement is designed for use with our removable **AIRFLEX™ SERIES COMBAT KNEE PADS** (sold separately). All of this combined provides uncompromised performance built specifically for women. Made in US from US materials.
