4. VELCRO® tab closure at cuffs
5. Mesh internal elbow pad pockets with optimized placement, accepts our **AIRFLEX™ SERIES ELBOW PADS** (sold separately)
6. Waist shaping panel

DESIGN

The G4 Female Field Shirt features **VTX RIPSTOP™** fabric. The integrated stretch allows for a slimmer cut while maintaining maximum mobility - even under body armor. Reduced neck opening and shoulder width allows for a more ergonomic female fit. Raised chest pockets are low profile with flaps engineered to be tucked in for ease of access. Raised armholes and reduced sleeve circumference provide enhanced mobility and reduced bulk, with designated waist shaping and a shortened body length. Zippered shoulder pockets reduce bulk while still allowing room for all essential gear. Designed for use with all removable **AIRFLEX™ SERIES ELBOW PADS** (sold separately). Made in US from US materials.
