

AIRFRAME™ CHOPS

HLMAC1

FEATURES

1. Allows proper sighting and firing of weapons
2. Eliminates blind spots inherent to traditional face protection
3. Able to be donned and doffed in seconds
4. Compatible with NVGs and most standard tactical goggles
5. Flexes to fit various face shapes
6. Provides fragmentation and blast/flame protection

NOTE: AIRFRAME™ RAILS™ are required for CHOPS™ installation.

DESIGN

Easily attached and removed with one hand, AIRFRAME™ CHOPS™ offer mission-tailorable maxillofacial protection. AIRFRAME™ CHOPS™ provide simple, lightweight ballistic protection that doesn't compromise communication, hydration, or situational awareness. AIRFRAME™ CHOPS™ use same attachment system as AIRFRAME™ EARS™. Sold as a pair. Patented, see WWW.LWPATENTS.COM. Made in US from US materials.
