

LPV™ TACTICAL

LBMPH3

FEATURES

1. Lightweight, form-fitting design for comfort and concealability
2. Fits both Low-Vis and Level IV standalone plates
3. Top-loaded, padded plate closure for comfort
4. Front loop placard for ATAK or MOLLE mount
5. Vertical side webbing for PTT or buckle attachment
6. Openings for cable passthrough
7. Compatible with detachable chest rigs or front flaps
8. Back slip pocket for cummerbunds and side VELCRO® Brand pouches
9. Multiple cummerbund attachments available

DESIGN

The LPV™ TACTICAL is lightweight and minimalist—offering a high level of versatility. Its durable construction centers around 330D nylon and stretch fabrics that create a low profile, but can accommodate the weight of standalone plates. The LPV™ TACTICAL vest's unique, top-loaded plate closure with padding provides comfort, while the offset top allows a streamlined fit. A top-front placard allows the user to mount flip-down mounts and MOLLE pouches. Multiple openings on the front and rear create cable passthroughs. Vertical webbing on the front accommodates PTTs and surface-mount buckle attachments. Compatible with various cummerbund options. Made in the USA—Berry compliant.
