

LVS™ SAPI INSERT SET

LVSP03

FEATURES

- 1. 3D-formed armor panels match the human body to deliver enhanced comfort and concealment
- 2. Low profile for concealed use
- 3. Anti-fungal and moisture-resistant fabrics used throughout
- 4. Proprietary forming technique eliminates crumpling of armor
- 5. Compatible with carriers that use SAPI-shaped plates
- 6. **THREAT LEVEL—CERTIFIED NIJ-0101.06 TYPE IIIA**

DESIGN

The LVS™ SAPI INSERT SET molded armor panels provide NIJ-approved, Level IIIA ballistic protection for the front and back torso and are designed to fit the LPV™ SLICK or LPV™ TACTICAL—as well as ballistic, compression-style shirts. The LVS™ SAPI INSERT SET is anatomically formed for a better fit and advanced concealment. The panels are constructed with the same AS3510 Armor Package as the LVS™ vests. The set comes in four sizes and is sold as a pair of front and back molded panels. Made in the USA—Berry compliant.
