2. Multiple mounting options
3. Small attachment footprint (4 5/8" W x 2 1/2" H)
4. Single-handed operation for opening and closing
5. Stores up to five 5.56 magazines

DESIGN

The **RUD (ROLL UP DUMP) POUCH™** combines functionality with a high degree of versatility. Given the limited space available on most range belts, this pouch maximizes belt layout options by offering various mounting choices to suit individual preferences. The **RUD POUCH™** seamlessly integrates with larger belts and newer style belts featuring narrower webbing, and it can also be easily configured to slide over belts with a maximum width of 2 inches for simpler setups. When not in use, the pouch can be rolled up compactly and securely, ensuring that the wearer is unburdened. With its one-handed deployment and cinching capability, the pouch provides convenience and ease of use. Constructed from durable 500D nylon and low-profile laser cut **AIRLITE®**, the pouch guarantees long-lasting and reliable performance. Made in the US from US materials.
