5. Stowable top flap for rapid access
6. Dual security flap closure
7. Available in single, double and triple versions

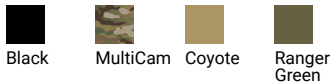

DESIGN

The **FB/40MM POUCH™** offers secure storage and quick access to flashbang and 40mm grenades up to 4.5". Durable constructed from laser-cut **AIRLITE®**, this pouch offers superior strength and reliability. The welded attachment strap utilizes a unique tab geometry — designed for optimum connection with minimal potential failure, ensuring that grenades stay protected. Heavy-duty elastic keeps gear secure while the dual security closure adds an extra level of protection. With single, double and triple pouch options available, the **FB/40MM POUCH™** is a versatile and secure carry solution. Made in the US from US materials.
