

EXP™ PACK MOLLE INSERT

POUPI000000

DESIGN

The EXP™ PACK MOLLE INSERT quickly snaps into the main compartment of our EXP™ PACKS creating a fast way to change the bag's load-out. Having multiple inserts allows immediate load swaps using the same pack. The insert creates a stable MOLLE platform for attaching pouches or accessories. Five lashing straps are included to stabilize weapons or other objects. Made in US from US materials.
